CURRENT REPORT

As per Law no. 24/ 2017 and ASF Regulation no. 5/2018

Date of report: 31.03.2022

Name of the issuing trading company: U.C.M. Resita S.A.

Registered office: Charles de Gaulle Square No. 15, Charles de Gaulle Plaza Building, 3rd Floor, Peles Office, Sector 1, Bucharest

Headquarters: Resita, Golului Street, no. 1, 320053, Caras-Severin County

Phone: 0255/217111; Fax: 0255/223082

Unique registration code: 1056654

Number at the Trade Register Office Bucharest: J 40/13628/2011

Subscribed and paid-up registered capital: 10,993,390.40 lei

The regulated market on which the issued securities are traded: Yearly Report related to the financial statements of the year 2021.

S.C. U.C.M. Resita S.A. informs the general public about the availability of the Yearly Report related to the financial statements of the year 2021.

The Yearly Report 2021 can be found as of 31.03.2022, on the website <http://www.ucmr.ro> and the IRIS platform link.

Starting with the same date, the parties interested in can apply, on written request, in order to obtain a copy of these documents. The management of the Company recommends that the request be transmitted using the fax/email or post/courier at the administrative headquarters of the company (working point) in Resita, Golului Street no. 1, 320053, Caras-Severin County. The fax number to which the request can be sent is 0255/223082 and the email address is: contact@ucmr.ro...

I. Non-financial declaration

1. Presentation of SC UCM Resita SA

UCM Resita SA, a company located in the southwestern part of Romania, was founded on 3 July 1771 by the first kilns and forges, which is the oldest industrial unit in Romania and one of the oldest in Europe. It is worth mentioning that, at the time of their inauguration (July 3, 1771), the factories in Reșița overtook the founding of famous factories such as Krupp Germany (1811), Vitkovice (1829), Donavitz (1836), MAN (1834), Sulzer Burmeister Wain (1843), Skoda (1851). If the beginning was devoted to the metallurgical sector, the machine building sector gradually developed, reaching to be preponderant in the last quarter of the nineteenth century. The two sectors coexisted for a long time completing each other within the same fully integrated unit.

SC UCM Resita SA, the continuation of the activity of the machine building sector in the Reșița industrial complex, as it is known today, is the result of many years of experience in the construction of machinery, transport, energy, metallurgical and chemical industry.

Since 1960, it has designed and built over 90% of the national hydropower equipment, putting in operation more than 6,325 MW installed power, representing 326 hydro-aggregates. The plant has accumulated over time, a distinct culture and has reached, both in the country and abroad, a special reputation based on tradition, competence and quality.

In 1991, according to Government Decision no. 1296/1990, UCM Resita becomes a public limited company and it is listed on the Bucharest Stock Exchange since 1997.

UCM Resita SA was privatized in 2003, through the conclusion of the share sale-purchase contract no. 57 / 23.12.2003, between the Authority for Privatization and Shareholding Administration (APAPS), as the seller, and the consortium consisting of the Swiss company INET AG and the Association of Employees UCM Resita SA as buyers.

According to the Conclusion of the hearing of 06.12.2011, in the file 75017/3/2011 the Bucharest Court of Law ordered the admission of the request regarding the opening of the insolvency procedure on UCM Resita, leaving to the company the right to conduct the activity, to administer the assets, rights maintained under the supervision of the appointed judicial administrator named by the syndic judge.

On 26.10.2021, the Assembly of Creditors approved the Reorganization Plan of the activity of the debtor UCM Resita SA proposed by the Judicial Administrator.

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

On 31.12.2021, the Company was in the observation period according to the provisions of Law 85/2006, Insolvency Law as the syndic judge confirmed the Reorganization Plan on 01.02.2022 by Decision no. 351.

The company has a total area of 53.77 hectares and is located on two industrial platforms (ABC and Călnicel) located in two different areas of Resita.

The Society also has numerous assets outside the current production area, both in Resita (Cultural House, Semenici Kindergarten, formerly Kindergarten with Prolonged Program No.7, apartments, blocks - former homes of unfamiliar, land etc.) and in Anina (Screw Factory) and a land in Ramnicu Valcea.

The production activity of the Company can be structured on the following sectors of production:

- Turbine Division and Spare Parts (former Naval Section)
- The heavy mechanics section
- Electric Machinery Section I
- Electrical Machines Section II
- Sculpture section (preserved)
- Welded Assemblies Section and Mechanical Processing
- Heat Treatments Section
- Diesel locomotive section (preserved).

General Meeting of Shareholders

The General Meeting is the governing body of *the Company* through which the will of the shareholders in any matter of interest to the Company is expressed. Since the opening of the insolvency proceedings, certain attributions of the General Meeting of Shareholders have reverted to the Creditors' Meeting, respectively to the Creditors' Committee.

The General Meetings of Shareholders may be ordinary and extraordinary.

Management of the Company

In compliance with the Decision of Bucharest Court of Law dated 06.12.2011, following the application regarding the opening of insolvency proceedings, *the Company* has retained the right to manage the assets under the supervision of the Official Receiver - VF Insolvență SPRL, appointed by the syndic judge.

Subsequently, by the Conclusion of the hearing of 29.05.2012, the Court appointed as Provisional Judicial Administrator the Consortium consisting of insolvency practitioners VF Insolvență SPRL and EURO INSOL SPRL, confirmed by the Creditors' Meeting on 11.11.2013.

After the opening of the insolvency procedure, according to art. 18 of Law 85/2006, the General Meeting of Shareholders appointed a Special Administrator who participates in the procedure and represents the interests of the company and of the shareholders.

During the Extraordinary General Meeting of Shareholders of 15.12.2021, the Special Directors of the Company, Mr. Cosmin URSONIU and Mrs. Nicoleta Liliana IONETE, appointed on 12.11.2012, were replaced by Mr. Aurel BĂRA and Mrs. Sorina Daniela POP who, together with

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

as a joint signature, represented the Company until 01.02.2022, when the Reorganization Plan was confirmed, which expressly stipulates that the Judicial Administrator exercises the management of the Company.

Creditors 'Committee and Creditors' Meeting

During the observation period, the documents, operations and payments made by the Company, which do not fall under the usual conditions for carrying out the current activity, will be subject to the approval of the Creditors' Committee.

Executive management of UCM Resita S.A.

The executive management of the Company during 2021 had the following structure:

- Mr. Cosmin URSONIU – General Director
- Mrs. Liliana Nicoleta IONETE - Human Resources and Economic Director
- Mr. Cristian MURGU - Director of Production

In the last five years, no member of the administrative or executive management of *the Company* was involved in litigation or administrative procedures.

Internal Audit

The internal audit objectives are:

- Objective insurance and counseling of the company's systems and activities in order to make them more efficient
- Supporting the achievement of the company's objectives through a systematic and methodical approach that evaluates and improves the effectiveness of the management system, based on risk management, control and management processes.

Internal audit activity is exercised over all activities within the Company in accordance with the approved Annual Internal Audit Plan or Audit Missions set up by the Special Administrator outside the plan.

Internal auditing ensures greater efficiency through a more appropriate use of human and material resources, as well as better coordination between the various departments of the Company.

2. Business model description

The main activity domain according to the National Economy Classification (NACE) is "the manufacture of equipment for the production and use of mechanical power (except for engines for aircraft, motor vehicles and motorcycles) - Code 281."

The main activity of the Company is "manufacture of engines and turbines (except for aircraft, motor vehicles and motorcycles) - 2811 CAEN Code".

The company also provides technical assistance services for the rehabilitation and improvement of existing engineering solutions, specializing in the fields related to its core business.

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

The main categories of products and services the Company carries out are:

- Hydroelectric units equipped with turbines of the type: Kaplan (up to 180 MW), Francis (up to 170 MW), Bulb (up to 28 MW), Pelton (up to 20 MW) and related installations (valves, regulators and groups pressure oil) and hydrogenerators with auxiliary installations;
- Constructive design, technological design, assembly, service for manufactured products / equipment;
- Asynchronous electric motors with power ranging from 500 to 10,000 KW; synchronous motors and synchronous generators with power ranging from 500 to 12,500 KW; motors and DC generators with power ranging from 500 to 6,000 KW;
- Welded assemblies (metal welding constructions / confections), for various purposes;
- Spare parts and repairs / modernization / rehabilitation for all hydro and non-hydro equipment;
- Hydromechanical equipment - repairs;
- Machining of forged parts,
- Destructive tests within the lab for destructive testing;
- Calibration / verification and repair of measuring instruments within the metrology laboratory
- Thermal, thermochemical and galvanic treatments

Currently, the solution to pollution, global warming and ultimately to energy independence is green energy. Compared to the electricity produced in classical power plants, the energy produced in hydropower plants is clean, non-polluting.

Starting from these premises, all efforts are subordinated to the Company's mission, to be on the Romanian market the main supplier of equipment for investment projects, re-technology and repairs of the hydro-energetic facilities in the country.

3. Main suppliers

Depending on the ability to provide safe products / services, recommended for the manufacture of items of high importance, UCM Resita's suppliers are highlighted in three categories:

- Class A of those who meet between 10 and 15 points for the criteria imposed by society;
- Class B, which consists of those who meet between 5 and 10 points for the criteria imposed by the society;
- Class C among those who meet less than 5 points for the criteria imposed by society.

The company has 176 established suppliers, out of which 147 are suppliers in the country, 22 are suppliers of imported products and 7 are suppliers for external collaborations.

Of the domestic suppliers, 116 are in Class A capability and the rest of 27 in Class B. All external suppliers are in Class A, and collaborative suppliers are 6 in Class A, and 1 supplier in Class B.

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

The main suppliers of UCM Resita SA are:

- ITALINOX ROMANIA- tins, pips, balk, stainless steel fittings
- Avenarius Agro - painting material
- Hidarom Sibiu - measuring and control devices, hydraulic equipment, assembly devices
- Ductil Buzău - electrodes, welding equipment
- Romsenzor Bucharest - measuring and control devices, low voltage devices
- Thermodynamic Arad - faucets
- Miras International - metallurgical products, debited metal structures
- PH Pneumoservice – hydraulic equipment
- Unionocel Czechia - table
- Isovolta AG Austria - electrically insulating
- FORJA ROTEC - forged products

4. Major Customers

The final beneficiary of hydroelectric equipments made by UCM Resita SA is SPEEH HIDROELECTRICA SA, whether the Company has contracts concluded directly with this company, whether it is a subcontractor of SSH HIDROSERV SA, or Romelectro SA.

SPEEH HIDROELECTRICA SA, a leader in power generation and the main provider of technological services required in the National Energy System, is

- ✓ a vital company for a strategic sector with implications for national security.
- ✓ the largest energy producer in Romania considering the primary source of hydro energy;
- ✓ the largest provider of system services in Romania ensuring the stability of the National Energy System.

The company manages 430 groups, of which 169 in plants with installed capacity <10 MW, and 250 in CHE> 10 MW, and 11 are pumping groups. In an average hydrological year, Hidroelectrica provides 30% of the total national electricity production. Hidroelectrica's mission is to create value by producing and marketing electricity, in a responsible manner towards the community and the environment, in terms of quality and performance.

SPEEH HIDROELECTRICA SA functions through its seven branches: SH Bistrița, SH Cluj, SH Curtea de Argeș, SH Hațeg, SH Porțile de Fier, SH Râmnicu Vâlcea și SH Sebeș, □ which are managed by hydroelectric power plants strategically located throughout Romania. Among the most representative hydropower objectives of the company are:

- ✓ Hydropower and navigation systems Iron Gates I and Iron Gates II
- ✓ HPP Lotru
- ✓ Vidraru Hydroelectric Power Plant
- ✓ Dimitrie Leonida Hydroelectric Power Plant (Stejaru)
- ✓ Mărișelu and Remești Hydroelectric Power Plants
- ✓ HPP Râul-Mare Retezat and Ruieni HPP
- ✓ Gâlceag and Șugag Hydroelectric Power Plants

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

The strategy of increasing the value of HIDROELECTRICA company takes into account the following main directions:

- cost base optimization and operational optimization
- optimizing the operation of production capacities
- profitable investments
- regional expansion
- listing the company.

SSH HIDROSERV SA, Hidroserv S.A., Hydroelectric Services Company, is a subsidiary of the Hidroelectrica S.A. Hydroelectric Power Generation Company, having the legal form of a joint stock company. Company S.S.H. HIDROSERV S.A. has as main object of activity "Electricity production", the eight branches of the company (Bistrita, Cluj, Curtea de Argeș, Hațeg, Iron Gates, Râmnicu Vâlcea, Sebeș, Slatina) being certified to provide services consisting of:

- Installation and maintenance of energy aggregates;
- Design of electrical, automation and mechanical installations;
- Installation and maintenance of high and low voltage electrical installations;
- Installation, maintenance and modernization of equipment and secondary circuits PRAM, AMC;
- Civil, industrial and hydro-technical constructions;
- Performance and specialty tests;
- Technical support and design works in the energy field;
- Topo-geodetic and topobatiometric measurements;
- Road transport.

By the closing of the hearing held on 10.10.2016 by the Bucharest Tribunal in file 36365/3/2016, the opening of the general insolvency procedure against SSH HIDROSERV SA was ordered.

By the civil sentence no. 1598/24.06.2020 pronounced in the file 36365/3/2016, published in the Bulletin of Insolvency Procedures no. 11232/08.07.2020 the syndic judge confirmed the Reorganization Plan of SSH Hidroserv SA.

SC ROMELECTRO S.A. is one of the most important EPC Contractors in Romania, covering its entire energy chain through its projects: energy production, transportation, distribution and supply. Founded in 1971, Romelectro becomes the foreign trade organization of the Energy Ministry at that time, and since 1994 it has become a 100% privately owned company.

In 2005, Romelectro became the majority shareholder of the Institute of Energy Studies and Designs - ISPE and Electromontaj Carpați Sibiu, laying the foundations of the Romelectro Group. About the capabilities of the Romelectro Group, the references speak for themselves: design and complex engineering for more than 15,000 MW in conventional and nuclear power plants, representing 90% of the total installed capacity in Romania; complex rehabilitation programs for more than 3,000 MW; engineering and design for more than 150 high voltage substations and approximately 22,000 km of designed or executed AEL.

Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

In its over 50 years of existence, Romelectro has carried out large-scale contracts both on the domestic and international markets.

Even if in recent years the projects developed by Romelectro have mainly covered the Romanian market, the international experience is also to be taken into account. Romelectro has become known on all continents as an EPC contractor and equipment supplier. The Vafregan and Saveh dams in Iran, Ksob and El Fakia in Algeria, 10,000 km of AEL in Iran, Iraq, the Philippines, Jordan, Syria, Algeria, Malaysia and Nigeria are some of the most important projects in the external portfolio.

The experience and capabilities of the group of companies have made Romelectro a local reference partner on the Romanian market. Moreover, the strategic partnerships and agreements with the most important suppliers of equipment, technologies and know-how in the world, offer the necessary advantages for consolidating the export activity of services and equipment on a very competitive basis.

By the conclusion of the hearing pronounced on 03.02.2022, by the Bucharest Tribunal in the file 909/3/2022, it was ordered the opening of the general insolvency procedure against SC ROMELECTRO SA.

5. Main Competitors

If on the internal hydro market, the competition is relatively limited due to the fact that the Company has the know-how of all hydropower equipment in operation at Hidroelectrica, on the external market UCM Resita has to face fierce competition represented by brand companies in the field of hydropower equipment, such as:

VOITH HYDRO GmbH & Co. KG KG sets standards in the energy, oil and gas markets, paper, raw materials, transport and automotive. Founded in 1867, Voith has more than 19.000 employees, operates in more than 60 countries around the world, and is currently one of Europe's largest family companies.

A quarter of the world's hydropower is generated by turbines and generators from Voith Hydro.

ANDRITZ HYDRO GmbH, headquartered in Vienna, Austria. The cornerstone of this company was laid by the pioneers of turbine and generators in Europe and North America in the nineteenth century. Over time, growth, mergers and cooperation agreements have created a state-of-the-art technology company with over 7,500 employees, working in more than 50 locations in over 25 countries worldwide and is organized in five major divisions: Large Hydro; Service & Rehab; Compact Hydro; Turbo Generators; Pumps. It is a global supplier of electromechanical systems and services ("water-to-wire") for hydropower plants and one of the world's leading manufacturers of hydraulic power. The over 175 years of experience in the activity of hydraulic energy supply, as well as the intensive research and development activities form the solid basis of ANDRITZ Hydro's skills.

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

ALSTOM POWER HYDRO, headquartered in Levallois - Perret, France, and manufacturing and manufacturing subsidiaries in France, India, Canada and Switzerland and only manufacturing in China, Spain and Brazil, Alstom can deliver hydroelectric solutions and services in a timely manner and effective throughout the world. The company offers construction of power plants, turbines, generators, control systems, hydromechanical equipment and electronic components, provides technical assistance, software development, maintenance, financing and status monitoring. It has more than 100 years of experience in engineering, procurement and construction (EPC) of new power plants and operates in more than 70 countries around the world. He also has experts in the refurbishment, modernization and service of existing plants.

From the point of view of the endowments with installations, equipment and machinery that can make hydropower aggregates, the main competitors of the Company are:

GENERAL TURBO, in its 45 years of existence on the entire market, has adapted its strategy according to the requirements of the energy market, materializing its presence especially in rehabilitation, refurbishment and modernization projects.

On foreign markets, the presence of GENERAL TURBO as General Contractor materialized both by carrying out projects aimed at providing turnkey new turbogenerators, and by carrying out complex rehabilitation projects.

POPECI UTILAJ GREU SA, based in Craiova, has over 24 years of experience in the heavy equipment industry, but also in terms of renting spaces in the industrial park. The company has permanently invested in modern equipment and qualified personnel.

CUSBAC SRL Bacău, established in 1991, has as specific the design, production and sale of industrial steel fittings (valves), with working pressures PN2.5 ÷ 25 and nominal dimensions DN150 ÷ 3500, of hydromechanical machinery and equipment for energy, irrigation, water supply and sewerage (butterfly valves, check valves, compensators, flat and dam valves, flow control valves, energy sinks, frequent grate cleaners and zip lines, valve drives, aeration - deaeration devices, hydration valves for irrigation, sorbents).

The company has been equipped with state-of-the-art equipment and machinery, so that in a short time it was possible to manufacture a very wide range of products: butterfly valves, check valves, mounting compensators, energy sinks, flow control valves, fittings IAHC type hydraulic and counterweight installation, dam, flat wall valves, cofferdams, manual and electric reducers, various fittings, specialized in applications.

6. Technical Equipment

UCM Resita has great opportunities for:

- machining on large, medium and small lathes, on milling machines, planning machines, grinding machines, adjusting machines, CNC machines.

Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

- machining on top lathes of parts up to Ø 3,650 x 16,460 mm and weight up to 80 tons;
- Machining of carousel lathes with diameters up to Ø 16.000 mm and weight up to 125 tons;
- Drilling up to Ø 160 mm with hole widening up to Ø 630 mm maximum at a depth of maximum 11,000 mm; work piece weight up to 20 tons and honing possibilities;
- milling of parts with length / width / height up to a maximum of 24000/5500/4500 mm on milling machines;
- milling and boring on milling and boring machines with large dimensions;
- clamping for parts with width / maximum height: 2000/2000 mm;
- grinding on internal surfaces at minimum / maximum Ø 20/350 mm diameters, external surface grinding to diameters up to Ø 400 mm and lengths of 20.000 mm.
- nondestructive tests in the non-destructive testing laboratory;
- destructive tests within the destructive testing laboratory;
- calibration / verification and repair of measuring instruments within the metrology laboratory;
- thermal, thermochemical and galvanic coatings
- welding equipment: for cutting tins and shaping;
- blasting equipment
- painting equipment

7. Company development policies and their outcome

UCM Resita SA has implemented and operates an Integrated Quality Management System - Environment-Health and Occupational Safety, in accordance with the SR EN ISO 9001: 2015, SR EN ISO 14001: 2015 and SR OHSAS 18001: 2008 referencing requirements, with the certification body Lloyd's Register Quality Assurance, as follows:

- Quality management system according to the SR EN ISO 9001: 2015 standard
- Environmental management system according to the SR EN ISO 14001: 2015 standard
- Occupational health and safety management system according to the SR OHSAS 18001: 2008 standard.

It also holds the following certifications / attestations / authorizations / licenses:

- Certification of the Metrology Laboratory no TM-12-01-20 for the competence to perform calibration of measuring instruments in accordance with the requirements of SR EN ISO / CEI 17025: 2005, issued by the Romanian Legal Metrology Bureau, Timisoara;
- Certificate no. 010/3/2017, rev. 0, capability certificate according to EN ISO 3834-2 for welding (welding, gluing and cutting), hydropower equipment and naval and rail diesel engines and welding processes: manual welding with coated electrode (111, MMA); arc welding in active gas / inert gas with fused electrode (135/131, MAG /

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

MIG); arc welding in active gas with tubular wire (136 MAG); welding under flux layer with electrode wire (121, UP); TIG welding (141, WIG), issued by ISIM Cert Timisoara;

- Certificate of Conformity of factory production control 2028-CRP-359 for structural use according to EN 1090-1 + A1: 2011 issued by RINA SIMTEX;
- Qualification of the Quality Management System in accordance with the CNCAN Quality Management Norms NMC 07, quality class 4, by CNE Cernavodă
- Authorization of Railway Supplier for manufacturing: spare parts for traction diesel engines - AF series, Nr. 8220 / 07.09.2020, issued by AFER (Romanian Railway Authority);
- Approval certificate for the production of spare parts for Diesel engines Sulzer 12 LDS 28 B, 6 LDA 28 B and 6 LDSR 28 B, OT series, no.62/2019, issued by AFER (Romanian Railway Authority);
- Authorization of the Non-destructive Control Laboratory for carrying out the testing and verification categories specific to the railway products - AL Series Nr. 406/2011-R 3 issued by AFER;
- Authorization of the Physical-Chemical Laboratory to perform the testing and checking categories specific to the railway products - AL series. 409/2011-R 4, issued by AFER;
- Nondestructive Non-destructive Laboratory Examination for Non-Destructive Examinations in UT, Ultrasonic Examinations Specialty (s, t, l, f, tv) for pressurized products and lifting equipment according to DISPR/CR6/TIPF/0044/0/ 05.10.2011, issued by ISCIR (State Inspection for Boiler Control, Pressure Receptacles and Lifting Installations);
- Non-Destructive Laboratory Authorization for: Non-Destructive Examinations in U.T. U.T. specialty (g) - Ultrasonic thickness measurements for pressure products and lifting equipment according to DISPR/CR6/TIPE/0044/0/05.10.2011 issued by ISCIR;
- Nondestructive Laboratory Authorization for: Non-Destructive Examinations in the field of T.P. - Penetrant Fluid Tests for Pressure Products and Lifting Installations according to DISPR/CR6/TIPA/0044/0/05.10.2011, issued by ISCIR;
- Non-Destructive Laboratory Authorization for: Non-Destructive Examinations in the Field of M.T- Magnetic Powder Exam for Pressure Products and Lifting Equipment according to DISPR/CR6/TIPB/0035/0/05.10.2011, issued by ISCIR;
- Agreement for carrying out the destructive testing activity DISPR/CR6/J, K, L/ 0041/0/21.07.2016, in accordance with the ISCIR CR 6-2013 Technical Prescriptions and Minutes no. 65C-049, issued by ISCIR;
- License for electricity distribution no.1019 / 30.06.2011, issued by ANRE;
- Certificate No. DISPR/J/8881/05.06.2013 for technical personnel, Technical officer for non-destructive examinations, issued by ISCIR

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

- Certificate No. DISPR/K/8872/05.06.2013 for technical personnel, Technical Assistant for destructive examinations issued by ISCIR
- Certificate No. DISPR /I/6831/23.11.2012 for technical personnel, Technical Assistant with welding for pressure installations and RTS lifting equipment, issued by ISCIR;
- Authorization No. OR/CR4/C, O/24,25,26/1192/1/05.08.2013 for repair, maintenance and overhaul of cranes (displaceable on tracks without running track with $S_o = 50t$ /running with $S_o = 200 t$; with arm and/or rotating platform working at fixed point or moving on horsepower with $S_o = 20 t$), issued by ISCIR;
- Authorization No. DISPR/CR4/E/24, 25/3716/2/21.10.2015 for technical checks in use for technical investigations / examinations on cranes (displaceable on runways without $S_n = 20t$ /horses with running track with $S_n = 200 t$), issued by ISCIR;
- Authorization no. OR/CR4/P/1482/12.09.2016 for the repair, maintenance and technical review of the electric and hydraulic lifts for people, people and goods or of goods with internal control with $S_{max} = 5000 kg$, issued by ISCIR.
- Authorization No: OR/CR4/K, L/14/1094/1 /17.01.2013. Authorization Update No. OR/CR4/K, L/1094/2/11.10.2018 - Verification (on opening-closing), repair and adjustment of the safety devices apvad $P_{max} = 25 bar$, $D_{nmax} = 80 mm$, issued by ISCIR;
- Authorization No: OR/CR 4/D/1,2,3/1188/0/04.07.2013. Authorization Update No. OR/CR4/D/1,2,3/1188/1/10.01.2019 – Technical verification in use at: Fuel consuming machines with $P \leq 400KW$; Hot water boilers with $P \leq 400KW$; Low pressure steam boilers with $Q \leq 0.6 t / h$, issued by ISCIR;
- CERTIFICATE OF ENERGY MANAGER no. 1049/26.09.2019 with ANRE (National Energy Regulatory Authority), issued by ANRE;
- Certificate of conformity no. GALEX.SP.2018.198.0127X for paint - drying booth from DP0600, contract no. 5859-2018, issued by INSEMEX PETROSANI;
- License No.0178805/2016 for the public road transport of goods and Compliant copies (issued annually), issued by ARR (Romanian Road Authority);
- Certificate of Technical Inspection Stelaj for gas transport in containers-no. 75377 (ADR), issued by IPROCHIM SA Bucharest;
- Authorization of non-destructive examination (visually) according to the technical prescription ISCIR, CR 6-2010-2 people, issued by ISCIR;
- Certificate of visual examination, level 2 (VT), according to EN ISO 9712: 2013- 4 people, issued by ISIM CERT END;
- Authorization of non-destructive examination (visually) according to the technical prescription ISCIR, CR 6-2010-3 people, issued by ISCIR;
- Ultrasound examination certification-UT 2, 6 people.; with penetrating liquids-PT 2, 7 people; with magnetic particles - MT 2, 7 people, issued by ISIM CERT END;
- Certificate (RADTP IR) no. DISPR / D / 11279 / 01.04.2015, issued by ISCIR;
- Certificate (RSL IR) no. DISPR / H / 8435 / 31.03.2015, issued by ISCIR;

(all amounts are given in lei (RON) unless otherwise stated)

- Authorization (RSVTI) no. OR-596 / 11.03.2015, issued by ISCIR;
- Certificate (RADTE IR) no. DISPR / F / 11464 / 10.06.2015, issued by ISCIR;
- Certificate no. DISPR / B / 11752 / 21.10.2015 (RVTA, issued by ISCIR;
- ISCIR authorizations for slide bridge cranes, issued by ISCIR;
- Welders' Authorizations, issued by ISCIR / ISIM / RINA SIMTEX;
- Certified No. DISPR/G/12536/15.11.2016 Specialized technical personnel, responsible for the supervision of the constructions at installations under pressure (RSL-IP), issued by ISCIR;
- Certificate No. DISPR/A/13988/11.09.2018 Specialized technical personnel, responsible for the technical verification in use of the heating appliances supplied with solid, liquid or gas fuel, of the hot water boilers $P \leq 400 \text{KW}$, of the low pressure steam boilers with the flow rate $Q \leq 0.6 \text{ T / H}$ and the burners with gaseous and liquid fuels (RVT), issued by ISCIR;

To Implement the Development Strategy Top Managing:

- Issued Quality Policy, Environmental Policy, Occupational Health and Safety Policy, which represent the general principles on which UCM Resita's work is based on quality, environment, occupational health and safety;
- established objectives in the field of quality/environment/occupational health and safety;
- determined the external and internal aspects relevant to its strategic direction and direction, the context in which the company operates;
- determined the relevant internal and external stakeholders and their requirements;
- determined the organizational and operational risks and opportunities.

In order to achieve the proposed goal, the top management of our company is committed to:

- allocating the necessary resources for the implementation and improvement of the quality management system processes;
- promotion of process-based approach and risk-based thinking;
- ensuring the organizational framework for establishing and analyzing the quality objectives, correlated with identified risks and opportunities;
- raise the level of training and awareness of the personnel regarding the quality of the activities carried out;
- continuously improving the quality of products and services provided, as well as increasing customer satisfaction;
- know and comply with legal requirements and applicable regulations
- meeting the requirements and expectations of stakeholders;
- maintaining and improving an effective quality management system;
- protecting the environment including accidental pollution prevention
- employee awareness of the environmental aspects generated by the activity carried out
- compliance with legal requirements and fulfillment of compliance obligations

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

- continuous improvement of the environmental management system in order to increase the company's environmental performance
- provide the best conditions for the process, in order to protect the life, body integrity and health of the personnel.
- Migration to the new standard SR ISO 45001: 2018 - Occupational health and safety management systems.

During the annual Analysis session conducted by management at the highest level, the following aspects were discussed:

- the state of execution of the judgments ordered at the previous meeting;
- relevant changes in the Company's external and internal context
- Stage of achieving the objectives in the field of quality;
- product conformity;
- costs of internal non-quality;
- costs of external non-quality;
- the costs of total non-quality;
- the situation of internal/external audits;
- situation of the implementation of corrective actions ordered;
- the stage of the training and the effectiveness of the training;
- measuring customer satisfaction and feedback from relevant stakeholders;
- risk and opportunity management;
- performance of external suppliers;
- proposals for improvement;
- environmental report;
- the occupational health and safety report.

The results of the Management's Analysis are materialized by decisions in the Managing Analysis Session Synthesis, for which the responsible persons and the deadlines for the implementation are established.

The Quality Bulletin is compiled monthly and includes: Product compliance, Internal non-quality costs, External non-quality costs, Total non-quality costs, Quality objectives, Risk and opportunity management, General conclusions.

8. Risk management

Risk management is a complex process of identifying, analyzing and responding to possible risks to which the Company is exposed, through a documented approach, which uses material, financial and human resources to achieve its objectives, aiming to reduce their exposure to losses.

The implementation of risk management within the Company is achieved by:

- ✓ systematic analysis, at least once a year, of the risks related to the activity
- ✓ identification of new risks

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

- ✓ establishing the type of risk response and the limits
- ✓ appointing those responsible for the risks
- ✓ recording the information on risks in the risk register.

UCM Resita SA is exposed to the following risks:

- Credit risk
- Liquidity risk
- Currency risk
- Market risk and economic environment
- Personnel risk
- Quality risk
- Occupational health and safety risk
- Environmental risk

Risk management policies and systems are regularly reviewed to reflect changes in market conditions and the Company's business/activity.

Credit risk is the risk that the Company will incur a financial loss as a result of the breach of contractual obligations by a client or a counterparty to a financial instrument, and this risk results mainly from trade receivables. The company monitors the exposure to credit risk by analyzing the seniority of the receivables it registers and acts to recover the past due or expired ones.

Exposure to credit risk is influenced by the individual characteristics of each client and the country in which he operates. Most of UCM Resita's clients operate in Romania.

The Company's management constantly monitors this exposure, in order to be able to mention the risk as low as possible.

Liquidity risk is the risk that the Company will encounter difficulties in fulfilling its obligations associated with debts that are settled in cash or by transferring another financial asset.

The *Company's* approach to liquidity risk is to provide, to the extent possible, sufficient liquidity at all times to meet its debts when they become due, both under normal and stressful conditions, without bear unacceptable losses or jeopardize the *Company's* reputation.

To counteract this risk factor, the *Company* applied restrictive measures to deliver the products to uncertain customers, even requesting advance payment.

The management of the Company is also concerned with the careful selection of new customers according to their creditworthiness and financial discipline.

Currency risk

The *Company* operates in Romania, in an economic environment with strong fluctuations of the national currency against other currencies; The company has transactions in a currency other than the functional currency (RON).

Transactions made in foreign currency are converted into lei at the exchange rate valid on the date of the transaction.

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

Therefore, there is a moderate risk of depreciation of net monetary asset value expressed in domestic currency, the foreign exchange market in Romania regarding conversion of domestic currency in other currencies being organized by the rules and common practices strengthened in the last years and the role of BNR in this regard is very important. Currently, there is no market from abroad to perform conversion of the domestic currency into other currencies.

Risk of market and economic environment

The Romanian economy is still in transition, the economic and health crisis generated by the COVID pandemic - 19 significantly affecting it, even if there is some certainty about the future evolution of Romania's policy and economic development, as a member of the Union European. Market risk is the risk that changes in market prices, such as exchange rates, interest rates, and declining market demand will affect the *Company's* revenue.

The management of *the Company* cannot foresee the changes that will take place in Romania and their effects on the financial position, on the results of the activity or on the cash flows of *the Company* for the following accounting year, only within the limits of available information. Eventual changes that could affect the internal conditions of Romania and the effect they could have on the activities of the customers of *the Company* and hence, on the financial position, on results and cash flows of *the Company* could not be taken into account in preparing the *financial statements*, only within the possible limits of predictability.

The instability of the market for raw materials and materials is a risk that has been mitigated by market research, renegotiation of contract terms and even change of suppliers, if it was not possible to change the terms.

The risk of price volatility from electricity, methane gas, metals, diesel, was prevented, as far as possible, by finding new suppliers or renegotiating contracts with traditional suppliers.

Identification and evaluation of business opportunities, including the development (capital investment), influenced by the current state of economic recession (crisis), analysis of compliance with the crediting contracts and other contractual obligation, evaluation of significant uncertainties, including those related to the ability of *the Company* to continue to operate for a reasonable period of time, due to falling demand, all these are permanent tasks in attention of *Company's* management for the purposes of identification, access and use of financial resources, respectively substantiation of possible future financial flows in order to support the principle of continuity.

The customers of *the Company* can also be affected by the crisis situations, the lack of liquidity which could affect their capacity to pay the current debts.

Impairment to customers' business and operating conditions may also affect grounding of cash flow provisions, respectively the analysis of *the Company's* financial assets (debts) depreciation.

The Company's management cannot predict all events that could affect the industrial sector in Romania, respectively their impact on *the financial statements*.

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

Personnel risk is the risk that the Company will encounter difficulties in carrying out its activity due to the lack of qualified personnel on the labor market and the aging of the existing one.

The *Company's* approach to the shortage of qualified staff is aimed at maintaining a close link with the city's educational institutions.

Thus, the UCM Resita *Company*, through the schooling applications submitted annually, is involved in the process of establishing the schooling plan at pre-university education level, as well as its endorsement, as a member of the Local Committee for Social Partnership Development (CLDPS).

Furtheron the Society has partnerships with educational institutions for internships for students and pupils in vocational and post-secondary education.

The biological risk posed by age is maintained at a reasonable level.

Quality risk

In the field of quality, there were identified, evaluated and analyzed 52 risks (48 operational and 4 organizational) and 4 opportunities for which there were established and implemented actions to deal with risks and opportunities.

The Company has appointed, by Internal Decision: the Head of Quality Risk and Opportunity Management, as well as the members of the Quality Risk and Opportunity Management Committee.

For the environmental management system were identified, evaluated, analyzed 11 risks and 7 opportunities for which there were established and implemented actions to address risks and opportunities.

Also, by Internal Decision, the members of the Environmental Risk and Opportunity Management Committee were appointed, as well as the Head of Environmental Risk and Opportunity Management.

Occupational health and safety risk

For the occupational health and safety management system, there were identified, evaluated and analyzed 4 risks and 1 opportunity, and there were taken actions to deal with risks and opportunities.

The members of the Health and Safety Risk and Opportunity Management Committee, as well as the Health and Safety Risk and Opportunity Management Officer, have been appointed to the Company by Internal Decision.

The evidence of the risks and opportunities identified, evaluated, analyzed and treated is made by completing and maintaining an up-to-date Register of risks, respectively of a Register of opportunities.

The environmental risk is due to the fact that the organization's activities may generate certain forms of environmental change, thus inducing a potential danger. The effect of human activity can be a threat to flora, fauna, and human health and well-being. Destructive effects can also affect water, air, soil, energy and climate in general.

Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

The risk to the Company stems from environmental issues and includes the risk of non-compliance with existing or future legislation and criteria.

The objectives that the Company pursues to reduce and eliminate this risk are:

- Protecting the environment, including preventing accidental pollution;
- Ensuring compliance with legal requirements on environmental protection;
- Awareness of employees about the environmental aspects generated by the activity;
- Collaboration with customers and suppliers to ensure compliance with the Environmental Policy;
- Continuous improvement of the Environmental Management System, in order to increase the environmental performance of the Company.

The environmental risks were identified and assessed, as well as the environmental opportunities corresponding to the activity carried out by all departments. The established measures and the preventive actions carried out led to the prevention of the pollution of the environmental factors.

9. Key non-financial performance indicators

THE SWOT ANALYSIS

BEST POINTS	WEAK POINTS
<ul style="list-style-type: none"> * designed and built over 90% of the Romanian hydropower system; * has the know-how necessary for commissioning new hydropower equipment for the repair and / or refurbishment of existing ones; 	<ul style="list-style-type: none"> * high average age among specialists; * lack of qualified labor market personnel
OPORTUNITIES	THREATS

10. Aspects regarding impact over environment

Aware of the nature and magnitude of the impact of its activities, products and services on the environment, the understanding of the expectations of internal / external stakeholders regarding environmental protection, S.C. U.C.M. Reșița S.A. has proposed the continuous growth of its environmental performance as one of the important factors for sustainable development.

The objectives pursued for this purpose are as follows:

- Protecting the environment, including the prevention of accidental pollution;
- Compliance with legal requirements and fulfillment of compliance obligations;
- Employee awareness of the environmental aspects generated by the work done;
- Collaborate with customers and suppliers to ensure compliance with Environmental Policy;
- Continuous improvement of the Environmental Management System in order to increase the Company's environmental performance.

The environmental management system of S.C. UCM Resita is certified in accordance with SR EN ISO 14001: 2015, the company holding the certificate no. 10313399 / 03.12.2020 (validity: 22.01.2024), issued by the Lloyd's Register (Romania) LLC certification body.

The way in which compliance with legal requirements in environmental and water management permits is regulated, is monitored at the level of each activity compartment.

Explaining the effects that the incorrect application or the ignorance of the legal provisions may have, is carried out by the personnel of the Environmental Protection service during the internal environmental audits, as well as the environmental protection officers of the Company, at the monthly training sessions organized with the personnel from the departments in which they operate.

UCM Resita SA holds the following environmental authorizations issued by the Caraș - Severin Environmental Protection Agency:

- Environmental permit no. 94 of 18.11.2021, for the ABC industrial platform - valid for the entire period in which UCM Resita obtains the annual visa, according to the provisions of Law 219/2019;
- The environmental authorization no. 96/25.11.2019, for the industrial platform Călnicel - valid for the entire period in which the annual visa is obtained, requested from the issuer; Annual visa decision no. 50 from 30.09.2020

The authorizations for water management owned by the Company are the following:

- Water Management Authorization no. 21 / S.G.A. - CS, from 29.03.2021, regarding the ABC industrial platform - valid until 29.03.2024. The document was issued by the CS Water Management System;
- The Water Management Authorization no. 430/31.10.2019, regarding the ABC industrial platform - valid until 31.10.2022. The document was issued by A.N. "Romanian waters" Banat Timișoara Water Administration.

The periodic assessment of compliance with legal requirements and other applicable requirements is made in relation to:

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

- environmental policy and objectives and planning the achievement of the company's environmental objectives;
- compliance obligations (legal requirements and other requirements to which the Company subscribes);
- the environmental aspects identified for each activity of the Company.

Keeping ongoing processes and associated environmental impacts under control is done by Environmental Protection Service staff, supported by the activity coordinators and environmental managers appointed at each compartment/department/service.

Environmental aspects of the activities, products, and services provided by the Company which, from a life-cycle perspective, it can control and/or influence upon, taking into account new, planned or new developments, activities, products or services, or modified to identify and evaluate those that have or may have a significant impact on the environment have been identified since 2008. They have been established for permanent activities carried out by their own staff, resulting in permanent environmental issues, as well as temporary activities carried out by its own personnel or by suppliers on behalf of the Company resulting in temporary environmental aspects. A particular emphasis is placed on keeping the significant environmental aspects under control.

In recent years, the total number of significant environmental issues has decreased in proportion to the restriction of activity, but also in direct connection with the awareness of the personnel regarding the protection of the environment. The control of significant environmental aspects arising from the main and auxiliary activities carried out in the compartments is controlled by maintaining the existing operational control.

The Company benefits from the following installations/equipment for the protection of the environmental factors:

- 6 separators of petroleum products/sludge decanters with coalescent filters, one separator with dock and one with float, mounted on the industrial/pluvial wastewater discharges from the ABC platform, in the Bârzava river,
- a wastewater neutralization station with chromium and zinc content with which the Heat Treatments section of the ABC platform is equipped;
- emission retention facilities resulting from blasting and dyeing production processes, which equip the section Welded Assemblies and Mechanical Processing on the Călnicel platform.

Waste management resulting from the production processes is carried out selectively, the personnel being trained for this purpose. UCM Reșița has an adequate infrastructure for temporary collection and disposal of dangerous and non-dangerous waste until it is handed over to authorized collectors for recovery or disposal, in compliance with the specific legislation.

Dangerous chemicals used in production processes are safely stored in compliant warehouses and handled in accordance with the Safety Data Sheets accompanying each of these products. The chemical / chemical storage facilities have concrete floors, have natural or forced ventilation and are equipped with means of intervention in case of accidental pollution.

Prevention and intervention in the event of an emergency situation is carried out by the personnel of the Company's Private Service for Emergency Situations as well as the staff of the intervention

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

teams within the departments/services, appointed by internal decisions, in order to prevent accidental pollution.

The consumption of utilities needed to carry out the activity is monitored monthly. By the measures established by the top management, reductions in the consumption of the following energy fluids were made:

- Reduction of natural gas consumption was obtained starting with 2012, due to losses on old networks provided by thermal plants on the ABC and Călnicel platforms was achieved by replacing the centralized heating system with local heating using ceramic gas radiators that are installed on the walls of the halls production; in addition, there are made regularly interventions by ensuring the sealing of the pipes in order to eliminate gas leaks;
- Reduction of drinking water consumption was achieved through interventions on water networks, where they required replacement of broken/damaged sections.

The environmental risks as well as the environmental opportunities corresponding to the activities of the Company's compartments have been identified and evaluated, the established measures and the preventive actions carried out have led to the prevention of pollution of environmental factors. Verification of compliance with the monitoring requirements of the environmental factors (emissions, immissions), waste water, drilling / underground water, equivalent noise level shall be made periodically based on the results of the test reports issued by the Company's laboratory and by the authorized and accredited RENAR external laboratory contracted for this activity.

Environmental monitoring requirements are included in the two environmental and water management permits that the Company owns for the work points in which they operate are the following:

- quarterly monitoring of the quality of the industrial and pluvial wastewater discharged into natural emissaries through existing exhaust manifolds on ABC industrial platform and semiannual for evacuation from Călnicel platform;
- the air quality (immissions) on the ABC and Călnicel industrial platform is monitored annually;
- the groundwater quality of the ABC platform is monitored annually;
- the equivalent noise level on the ABC and Călnicel industrial platform is monitored annually.

As a result of the activities carried out in recent years by a staff well trained and aware that it has to protect the environment, after monitoring / measurement of the quality of the environmental factors it was concluded that there are no exceedances of the admissible limits, according to the legislation in force. The conclusion resulted from the self-monitoring (by the Internal Physical-Chemical Laboratory), the monitoring provided by the contracted authorized company (SC Givaroli Impex SRL Bucharest), or following the monitoring performed by the representatives of the authority in the field of water management, (The Management System of the Resita, Caraș - Severin Waters

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

Greenhouse Gas Emission Authorization requirements 2013-2030, no. 123/21.04.2021 for EGES SC UCM Reșița SA installation - ABC Platform and No. 124/21.04.2021 - Călnicel Platform Working Point, issued by the National Environmental Protection Agency, are respected. Environmental Protection Service personnel will accept all the legislative steps according to 1256/2020 Order and the EU Regulation no. 266/2018, respectively GD 780 of 2006, updated, regarding the establishment of trading scheme of the greenhouse gas emission certificates.

For issuing the authorizations regarding the greenhouse gas emissions, for the period 2021-2030, SC UCM Resita SA made and send to the National Agency for Environmental Greenhouse Gas Emission Monitoring Plans for the period 2021-2030, for the SC UCM Resita installation from the two work points.

Regular reports are sent to Caraș-Severin Environmental Protection Agency on: dangerous chemicals management - monthly; management of purchased and consumed oils, as well as used oil - monthly; dangerous waste management - monthly; transport of hazardous waste - quarterly; quantities of industrial emissions - annually; statistical situation on waste management, GD PRODES form - yearly; inventory of volatile organic compounds (VOC) - annually; reporting of classified chemicals in accordance with Regulation 1272/2008) - annually; Updating the PCB Oil Disposal Plan - annually, centralized situation of self-monitoring on environmental factors: air, industrial wastewater, groundwater, noise - monthly and annually, according to the requirements of environmental authorizations, or at the request of the competent local or national environmental authorities (APM CS or ANPM).

The compliance of the Company with the requirements or expectations of the environmental/water management authorities is substantiated by the conclusions of the external audits of the environmental authorities/GA and the internal audits carried out by environmental protection staff in all compartments of activity. Following the inspections carried out by the representatives of the National Environmental Guard, the Caraș - Severin County Commissariat and those carried out by the representatives of the Banat Water Basin Administration Timișoara /Reșița Water Management System, no sanctions were applied during 2019. SC UCM Resita S.A. has not been involved in litigation concerning the quality of the environment and no court decisions have been issued on the quality of the environment.

11. Social and staff aspects

On December 31, 2021, UCM Resita SA had a staff of 591 employees assigned to the following structure:

- 414 workers, representing 70.05% of the staff
- 18 foremen, accounting for 3.05% of staff
- 159 TESA, representing 26.90% of staff.

The number of workers on 31.12.2021 decreased by 11%, compared to the same date of the previous year. This significant decrease is mainly due to the favorable retirement conditions granted in 2021 and the shortage of skilled labor in the labor market, which has made it impossible to replace those who have left.

Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

The unionization degree of the workforce in December 2021 was of 57%.

The employer acknowledges the "Union Resita 1771" as representative union, in accordance with the Law 62/2011 (The Law of Social Dialogue) that has 275 members and is part of Frăția CNSRL but also the "Independent Free Union", as legally constituted union with 62 members.

The rights and obligations of employees are established by the Individual Labor Agreement concluded between the representatives of the employer and the representatives of the employees on 28.05.2021, as annex and part of the applicable Collective Labor Agreement.

In order to resolve labor disputes, the signatory parties of the Collective Bargaining Agreement appointed the members of the Arbitration Commission.

During 2021 there were no labor disputes, the unions even taking an active role in supporting the interests of *the Company*, under the harsh conditions of the insolvency period, also being involved in taking measures to prevent and combat the effects of the COVID - 19 pandemic.

For health and safety at work, UCM Resita provides medical services through the Labor Medicine Cabinet - Doctor Viorel Tătaru, according to the Service Contract.

The employees are consulted by the medical staff of the medical cabinet, according to HG 355/2007.

Chapters IV and V of the Collective Bargaining Agreement provide for health and safety measures at work and social protection, agreed with the representative union.

12. Data protection aspects

As a consequence of the application of Regulation (EU) 679 of 27 April 2016 on the protection of individuals with regard to the processing of personal data and on the free movement of such data and repealing Directive 95/46 / EC (Data Protection Regulation), SC UCM Reșița S.A as data operator took the following measures:

- appointed a Personal Data Protection Officer through an Internal Decision and notified the National Supervisory Authority for Personal Data Processing
- trained the Data Protection Officer and the personnel who process personal data within the Company
- elaborated and submitted Information Note on the processing of personal data to potential employees, employees, current/potential clients/suppliers/potential partners of the Company, including the rights of the data subject in relation to the processing of personal data
- updated the Internal Regulation
- has implemented adequate technical and organizational measures to ensure personal data security, protection against unauthorized destruction, modification, disclosure or unauthorized access.
- updated internal procedures and Job Descriptions
- has drawn up Additional Documents to the contracts concluded between the operator and the persons empowered, regarding the processing of personal data,
- has drawn up the Record of the processing of personal data within the Company

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

- set up IT security Policies and IT security procedures.

During 2021 there were no incidents related to the protection and processing of personal data.

13. Climate change issues

SC UCM Resita S.A. is included in the list of economic operators who own installations that consume natural gas in operation and generate carbon dioxide emissions, through the activities of heat production and heat treatment operations of metal parts. The installations from UCM Resita that in operation generate carbon dioxide - greenhouse gas emissions (EGES), are:

- local heating systems (radiant panels / tubes, hot water boilers) and horizontal and vertical heat treatment furnaces from the working point - ABC industrial platform;
- local heating systems (radiant panels / tubes, hot water boilers) and the expansion furnace at the working point - Călnicel industrial platform;
- thermal power plant located on the ABC industrial platform;
- thermal power plant located on the Călnicel industrial platform.

The two thermal power plants have been out of operation since 2012, but being also owned by UCM Resita SA, they are included in the EGES installation on the two industrial platforms, participating in the calculation of the total power of the ABC and Călnicel work points, with its own installed power.

In the above context, the EGES UCM Reșița SA installation - ABC and Călnicel working point is one of the installations that fall under the scheme for the trading of greenhouse gas emission certificates in the period 2021-2030, at national level.

For the development of thermal energy production and heat treatment of metal parts, UCM Resita has the authorization no. 123 / 21.04.2021, regarding the greenhouse gas emissions for the period 2021-2030, for the ABC platform work point and no. 124 / 21.04.2021, regarding the greenhouse gas emissions for the period 2021-2030, for the Călnicel platform working point. The documents were issued by the National Agency for Environmental Protection (ANPM).

The main cause of climate change is the increase in greenhouse gas emissions.

To combat this, reducing emissions has become a priority for the Company. UCM Resita SA, operator of the installation that falls under the scheme of marketing EGES certificates in the period 2021-2030, has taken measures to achieve this goal and has complied with all obligations arising from this responsibility respecting the relevant legislation.

The activities carried out during 2021 for this purpose were the following:

- setting an environmental target for a 5% decrease in natural gas consumption at company level, compared to the previous year. By establishing and implementing the internal measures taken to achieve the target, at the end of 2021, the registered gas consumption was 34% lower compared to 2020;
- preparation of documents regarding the monitoring and reporting of EGES, requested by ANPM, in accordance with the legal requirements in the field:
 - EGES monitoring plan for the period 2021-2030 for the installation at the two work points;
 - preparation of the EGES monitoring and reporting report for 2020 and the report on the level of activity carried out, in order to allocate free of charge EGES certificates for 2021;

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

- elaboration of the Monitoring Methodological Plan for the 4th period of the EGES certificate marketing scheme;
- initiation of contract no. 113 / V of 23.02.2021, concluded with the accredited verifier RENAR, SC AEROQ SA, for the validation of the above documents, in accordance with the requirements of GD no. 780/2006, with subsequent amendments and completions.

14. Remuneration policy

By the civil sentence no. 351 / 01.02.2022 pronounced in the file no. 75017/3/2011 pursuant to art. 101 of Law 85/2006 on insolvency proceedings, the Bucharest Court Civil Section VII confirmed the reorganization plan proposed by the judicial administrator for the debtor UCM Resita SA, as approved by the Creditors' Meeting of 26.10.2021, the debtor's activity during the reorganization being led by the judicial administrator.

Thus, in accordance with the provisions of the syndic judge regarding the management of the activity by the judicial administrator, corroborated with the provisions of art. 103, para. (1) of Law 85/2006 according to which, during the reorganization, the shareholders do not have the right to intervene in the management or administration of the debtor's assets, the General Meeting of Shareholders has no attributions regarding the establishment of the principles and methods of remuneration used by Society.

On 31.12.2021 the administration of the Company was ensured by two Special Trustees appointed on 15.12.2021 under the supervision of the consortium of Judicial Administrators appointed by the Creditors' Meeting on 11.11.2013.

The Assembly of Creditors confirmed the decision of the syndic judge to remunerate the Judicial Administrator with a fixed fee of 2500 lei (excluding VAT) and a percentage remuneration of 1.5% (excluding VAT) from the capitalization of the debtor's assets and / or recovery of its claims, for each practitioner .

The remuneration of the Special Administrators revoked on 15.12.2021 was fixed and was established by the General Meeting of Shareholders of 12.11.2012. The Special Administrators of the Company appointed on 15.12.2021 are not remunerated..

The executive management of the Company is ensured by directors employed with individual employment contracts of indefinite duration.

The company does not grant variable or share-based remuneration.

15. Aspects regarding research and development

In the financial year ended 31.12.2021, UCM Resita did not allocate resources for research and development. This is mainly due to the insolvency of the Company.

Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

II. Financial Statement

The Annual Financial Statements on 31 December 2021 are prepared in accordance with the Order of the Minister of Public Finance no. 2844/2016.

The company carries out mainly activities in the hydro-energetic field, both on the domestic and the external market.

The main markets for each product or service marketed in 2021:

No.	Group of products	Markets
1.	Hydro Power Units (new products and rehabilitation)	Romania, Austria, Bulgaria, France
2.	Electric motors + repairs	Romania
4.	Miscellaneous	Romania
5.	Services	Romania
6.	Other revenues	Romania

The weight of each sort of products or services reflected in the total sales of UCMR for the year 2021 is as follows:

No.	Group of products	Weight in total sales
1.	Hydro Power Units (new products and rehabilitation)	67.71%
2.	Electric motors + repairs	4.12%
3.	Others	2.63%
4.	Services	21.98%
5.	Other revenues	3.56 %

One of the objective of UCMR is strengthening of its position in the domestic market and finding of new markets. In order to strengthen the relationship with traditional clients, the Company is seeking to increase the volume of contracts/orders in the field of hydro - hydro power units (repairs, modernization, rehabilitation and new equipment).

In order to achieve this goal, UCMR is conducting a number of internal market contracts mainly with Hidroelectrica and SSH Hidroserv branches: HPP Porțile de Fier I, but also with other companies such as Romelectro Bucharest: HPP Stejaru. All products and works related to these contracts have the final beneficiary Hidroelectrica.

For the year 2022 on the domestic market, the Company also proposed, besides the contracted projects, the participation in the execution of the capital repair and modernization works for Hidroelectrica projects, such as: HPP Arcești, HPP Remeti, HPP Vaduri, HPP PDF I - BUTUC ROTOR TH, HPP Turnu - ROTOR TURBINE PALETTE; HPP Costișa - LN3 TURBINA; HPP

Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

Cornetu - LN3 TURBINE, HPP PDF I - SPARE PARTS INSERTS AND SEGMENTS ROTOR TURBINE PALETTES.

As the Company has technological capabilities and know - how, it is intended to carry out different types of works and products different from those in the hydro - energetic field, such as water pumps, irrigation pumps and electric motors from the extractive and cement industry.

Significant reliance on a single customer or to a group of customers, whose loss would have a negative impact on the Company's revenues

The main customers of the Company, as a result of the turnover value achieved in 2021, are listed below:

No.	Customer	Weight in total sales
1.	S.S.H.HIDROSERV S.A.	46.13 %
2.	ROMELECTRO S.A.	6.84 %
3.	Voith Hydro GmbH & Co KG Division Small Hydro VHGE Austria	5.64 %
4.	ALMET INTERNATIONAL LTD SRL	4.23 %

It should be underlined that UCM Resita SA is captive on the domestic market, depending on 62.61% of a single customer, as in case of the contracts performed by Romelectro S.A. and Hidroserv, the final beneficiary is the same, namely Hidroelectrica SA.

Trends, elements or factors of uncertainty affecting the Company's liquidity, compared to the same period of the last year

According to the Profit and Loss Account, in 2021 the operating revenues increased by approximately 37.06% over the previous year, the weight of operating revenues in total revenues being of 95.20%, compared to 97.68% in 2020, respectively 98.70% in 2019.

Revenues	Lei		
	2019	2020	2021
Operating revenues	64,956,124	27,956,970	17,596,820
Financial revenues	852,704	664,291	887,953
Total revenues	65,808,828	28,621,261	18,484,773

Revenues	Weight in percentage (%)		
	2019	2020	2021
Operating revenues	98.70%	97.68%	95.20%
Financial revenues	1.30%	2.32%	4.80%
Total	100.00%	100.00%	100.00%

Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

In 2021, the share of operating expenses in total expenses is 87.49%, compared to 2020, when it was 108.11% (financial expenses have a negative value, due to the resumption of adjustments for depreciation of financial assets).

Expenses	Lei		
	2019	2020	2021
Operating expenses	80,010,182	51,525,234	51,308,718
Financial expenses	527,319	(3,867,157)	7,333,974
Total expenses	80,537,501	47,658,077	58,642,692

Expenses	Weight in percentage (%)		
	2019	2020	2021
Operating expenses	99.35%	108.11%	87.49%
Financial expenses	0.65%	-8.11%	12.51%
Total	100.00%	100.00%	100.00%

The main economical-financial indicators are shown in the table below, with the note that it was filled with "N/A" at those indicators of the accounting years 2020 and 2021 which include in calculation the negative amounts (values), respectively the losses for the current accounting year and/or previous one.

Indicators		2020	2021
1	Liquidity indicators		
	<i>Indicator for current liquidity - in number of times</i>	0.07	0.05
	<i>Indicator for immediate liquidity (acid test) - in number of times</i>	0.04	0.03
2	Risk indicators		
	<i>Indicator for indebtedness rate</i>	N/A	N/A
	<i>Indicator for interest coverage - in number of times (if negative, it will not be calculated)</i>	N/A	N/A
3	Activity indicators		
	<i>Turnover ratio of debts - customers - in number of days</i>	278	441
	<i>Turnover ratio of credits - suppliers - in number of days</i>	270	489
	<i>Turnover ratio of fixed assets - number of times</i>	0.19	0.13
	<i>Turnover ratio of total assets - in number of times</i>	0.14	0.09
	<i>Turnover ratio of stocks - in number of times</i>	1.54	1.37
4	Profitability indicators		
	<i>Gross margin on sales (%)</i>	N/A	N/A

Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

The indicator for *current liquidity* with reference to the operating capital, respectively the indicator for *immediate liquidity* (acid test), represents the ratio between current liabilities (on short term) and current assets, and respectively the ratio between these liabilities and the current assets less the stocks.

The indicator for *current liquidity* with reference to the operating capital, respectively the indicator for *immediate liquidity* (acid test), represents the ratio between current liabilities (on short term) and current assets, and respectively the ratio between these liabilities and the current assets less the stocks.

The values of these indicators are below the levels recommended for a situation of financial stability, reflecting a reduced capacity to cover the current liabilities from the current assets, and respectively from receivables and liquidity.

The indebtedness rate shows how many times the loan capital (credits for a period exceeding one year) is included in equity, reflecting the situation for long-term financing of *the Company* at the end of the accounting year. This indicator is not calculated, since *the Company* has no credits for a period exceeding one year, respectively the equity has negative value.

The rate of interest coverage shows how many times the expenses can be covered by the interest from profit before interest and tax. The smaller are the values of these indicators, the greater is considered the risk for the *Company's* position.

In 2020 *the Company* ended the accounting year with losses and this indicator is not calculated.

The turnover ratio of debits-customers shows the number of days within which the debtors (customers) pay their debts to *the Company* and thus expresses its effectiveness on the recovery of receivables.

The turnover ratio of credits-suppliers shows the number of credit days that *the Company* obtains from its suppliers. *The Company* has credibility in terms of its ability to pay the suppliers.

The turnover ratio of fixed assets shows the management efficiency in the use of fixed assets, expressing the value of the turnover generated by their exploitation. An increasing value shows that there is a better efficiency in the use of the fixed assets.

The turnover ratio of the total assets shows the management efficiency in the use of all the available assets, expressing the value of the turnover generated by them. In the accounting year ended, there is noticed an increase in the efficiency to use *the Company's* assets.

The turnover ratio of stocks indicates the management efficiency in the use of current stocks, expressing the number of their revolution in relation with the total costs of the turnover.

The gross margin from sales reflects *the Company's* efficiency expressed by the weight of profit in total revenues, respectively its advantageousness (profitability). A low value of this percentage may reflect the fact that *the Company* is unable to control its production costs or to achieve the optimum sale price. The company closed the financial year 2021 at a loss and this indicator is not calculated.

During 2021, a laptop worth 2,097 lei, purchased in a previous financial year for inclusion in a RAV (automatic cruise control) according to the provisions of a commercial contract was reclassified from the category of stocks to the category of fixed assets, no longer necessary when carrying out the respective project.

Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

The current assets existent in the patrimony have evolved from year to year, according to the data in the table below:

No.	Designation of indicator	2019	2020	2021
1	Stocks, of which:	21,981,115	23,589,716	22,512,085
1.a	- raw material and consumables	5,410,756	5,075,719	3,937,490
1.b	-production in progress	14,585,733	13,294,221	13,332,659
1.c	- finished products and goods	1,945,290	5,096,400	5,099,641
1.d	- down payments	39,336	123,376	142,295
2	Other current assets of which:	29,880,805	28,684,244	27,109,365
2.a	- receivables	20,197,782	19,483,824	19,667,910
2.b	- short-term financial investment	7,094,582	7,186,908	7,173,170
2.c	- cash availability	2,588,441	2,013,512	268,285

Inventories of raw materials and materials decreased significantly by 22.42% compared to the previous year, as a result of the Company's policy of reducing inventories, including those with slow movement.

The stocks of finished products and production in progress were maintained at the level of the previous year, comprising the equipment realized within the suspended projects related to the Bumbești, Dumitra, Căineni, Pașcani hydroelectric power plants, as well as the Stejaru HPP refurbishment project recorded delays due to technical reasons independent of UCM Resita.

Within the liabilities of *the Company*, the changes in assets registered from one year to another are:

No.	Designation of indicator	2019	2020	2021
1	Owner's equity	(737,053,138)	(758,553,901)	(798,633,416)
2	Debts	699,288,622	713,560,423	926,204,790
3	Income in advance	11,425	11,277	11,277
4	Provisions for liabilities and charges	233,771,668	232,605,508	43,177,792

Analysis of operating results

The revenues include both income from the main activity and gains from any other sources.

The revenues from sale of goods are recognized in the profit and loss account at the date on which the risks and benefits related to the ownership on goods are transferred to the buyer, which, in most cases, coincides with the date of billing (delivery) thereof.

Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

The revenues from goods sold (delivered) and services rendered are recognized based on the accrual principle, respectively at the date of their delivery/service rendering (transfer of ownership) to the customer.

The revenues from interest are recognized in installments (proportionally) as they are billed, in accordance with the contracts/agreements under which the loans were granted based on the accrual principle.

The revenues are recognized when there is no significant uncertainty regarding recovery of the services due and associated costs, or on possible returns of goods.

The value of products sold and services rendered by *the Company* has evolved as follows:

-lei-

No.	Explanations	2020	2021
1	Revenues from production sold	26,090,175	16,219,995
2	Revenues from sale of goods	-	-
3	Discounts granted	-	-
4	TOTAL TURNOVER (4=1+2-3)	26,090,175	16,219,995

The turnover in 2021 is of 16.219.995 lei, of which 9,91 % on the market in the European Union and 90,09 % on domestic market.

-lei-

No.	Explanations	2020	2021
1	Romania	25,344,981	14,611,925
2	European Union	745,194	1,608,070
3	TOTAL (3=1+2)	26,090,175	16,219,995

From the profit and loss account for the years 2019, 2020 and 2021 the weight of the main indicators related to revenues in total revenues is shown in the table below:

No.	Revenues	Weight in percentage (%)		
		2019	2020	2021
1	Turnover	55.14%	93.32%	92.18%
2	Changes in stocks	6.22%	6.65%	0.18%
3	Capitalized production	0.00%	0.00%	0.00%
4	Other operating revenues	38.64%	0.03%	7.65%
	Total	100.00%	100.00%	100.00%

Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

Depending on their nature, the revenues are as follows:

No.	Revenues	Lei		
		2019	2020	2021
1	Operating revenues	64,956,124	27,956,970	17,596,820
2	Financial revenues	852,704	664,291	887,953
	Total revenues	65,808,828	28,621,261	18,484,773

The expenses include those expenses that arise in the course of the ordinary activities of the company, also the losses (such as those resulting from disasters). *The Company* applies the principle of separation of accounting years for the recognition of revenues and expenses, which are classified and recognized on three categories (operational, financial and exceptional).

The expenses are classified and recognized based on the principle of their connection to revenues, respectively their allocation to products or services in which such revenues are realized.

The production cost of stocks is tracked on projects and, therein on each individual product, including direct costs related to production (direct materials, direct labor, and other direct costs attributable to products, including design costs) also the share of indirect costs for production, allocated rationally as related to their manufacture.

The general expenses for administration and sale, also the share of fixed overhead unallocated to products (indirect costs for production that are relatively constant, regardless of the volume of production) are not included in the cost of stocks, but are recognized as expenses made in the period in which they occurred.

Depending on their nature, the expenses are as follows:

No.	Expenses	Lei		
		2019	2020	2021
1.	Operating expenses	80,010,182	51,525,234	51,308,718
2.	Financial expenses	527,319	(3,867,157)	7,333,974
	Total expenses	80,537,501	47,658,077	58,642,692

Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

Within the operating expenses we have the following structure:

No.	Expenses	Lei		
		2019	2020	2021
1	Expenses on goods	15,236,675	6,019,147	3,692,477
2	Other external expenses (energy and water)	5,866,184	5,019,972	5,537,079
3	Expenditure on goods	-	-	-
4	Trade discounts received	94	19,452	215
5	Expenses with the personnel	33,357,409	28,929,778	25,326,806
6	Adjustments	5,374,104	5,448,906	(185,403,853)
7	Other operating expenses	20,175,904	6,126,883	202,156,424
	Total operating expenses	80,010,182	51,525,234	51,308,718

The weight of the main categories of expenses in the total expenses is shown in the following table:

No.	Expenses	Weight in percentage (%)		
		2019	2020	2021
1	Expenses on goods	19.04%	11.68%	7.20%
2	Other external expenses (energy and water)	7.33%	9.74%	10.79%
3	Expenditure on goods	0.00%	0.00%	0.00%
4	Trade discounts received	0.00%	0.04%	0.00%
5	Expenses with the personnel	41.69%	56.15%	49.36%
6	Adjustments	6.72%	10.58%	-361.35%
7	Other operating expenses	25.22%	11.89%	394.00%
	Total	100.00%	100.00%	100.00%

The financial risk factors identified by the Company are:

- Currency risk
- Credit risk (installments, interest)
- Liquidity risk
- Market and economic risk

**Yearly report of Judicial Administrator

A summary of the nature of the activities and managerial policies for managing financial risks has been presented in point 8 - *Risk Management* in the Non-Financial Statement.

III STATEMENT OF CORPORATE GOVERNANCE 2021

Through the current report from 31.03.2016, the Company sent to BVB, ASF and shareholders the information on the status of compliance on 31.12.2015 with the Corporate Governance Code of BVB, the document being posted on the company's website www.ucmr.ro.

In the conditions in which on 31.12.2021 the Company is still in the insolvency procedure regulated by Law no. 85/2006, the stage of compliance with the Corporate Governance Code of BVB remained unchanged, being presented in the following:

Stipulations of the Code	Comply with	Do not comply or partially comply	The reason for non-compliance / Other explanatory notes
A.1. All companies should have an Internal Regulation of the Board of Directors which includes the terms of reference / responsibilities of the Board and the key management functions of the company, that applies, inter alia, the general principles of Section A.		x	By the Court Decision delivered on 06.12.2011 by Bucharest Court of Law, Section VII, to the File no. 75017/3/2011 was decided to open the general insolvency proceedings against UCM Resita and, as a result, the company operates under the procedures regulated by Law no. 85/2006 on insolvency proceedings.
A.2. The provisions for managing the conflicts of interest should be included in the Regulation of the Board. However, the members of the Board must notify the Board with respect to any conflicts of interest that have arisen or may arise and to abstain from participating in discussions (including by default, unless where by default would prevent organization of the quorum) and from voting on a decision on the matter which gives rise to the said conflict of interest.		x	The management of the company is ensured by the Consortium of Official Receivers consisting of EURO INSOL SPRL and VF INSOLVENCY SPRL Bucharest, confirmed by the Creditors Meeting on 11.11.2013. The mandate of the Board of Directors of the company has ceased at the appointment of the Special Trustee.
A.3. The Board of Directors or the Supervisory Board must consist of at least five members.		x	On 31.12.2021, the Company was managed by two Special Trustees appointed by the General Meeting of Shareholders on 15.12.2021, which empowered them to perform measures of U.C.M. Resita S.A. management under the supervision of the Consortium of judicial administrators.
A.4. Most of Board members must not have executive position. At least one member of the Board of Directors or of the Supervisory Board must be independent in case of companies in Standard Category. For companies in the Premium Category, at least two non-executive members of the Board of Directors or of the Supervisory		x	On 31.12.2021 the company is in the stage of observation, under the

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

Board must be independent. Each independent member of the Board of Directors or of the Supervisory Board, as appropriate, shall submit a statement at the time of his nomination for election or re-election, and when there is any change of his status indicating elements based on which it is considered that he is independent in terms of his character and judgment, as well as the criteria laid down in the Code at A.4.1 - A.4.9.			supervision of the Judicial Administrator.
A.5. Other commitments and professional obligations, relatively permanent, of a member of the Board, including executive and non-executive positions on the Board of some companies and non-profit institutions, should be disclosed to shareholders and possible investors before his nomination and during his mandate.		x	Most of the relevant aspects of corporate governance stipulated by the Code of Corporate Governance at Sections A, B and C are not applicable to a company in insolvency proceedings.
A.6. Any member of the Board of Directors must provide information on any relationship with a shareholder who directly or indirectly holds shares representing more than 5% of all voting rights. This liability also applies to any relationship that may affect the position of the member on matters decided by the Board.		x	
A.7. The company must appoint a Secretary of the Board responsible for supporting the work of the Board.		x	
A.8. The statement of Corporate Governance will inform if it has carried out an assessment of the Board lead by the President or the Nomination Committee and, if so, will summarize the key measures and changes resulting from it. The company must have a policy / book of reference on the assessment of the Committee comprising the purpose, criteria and frequency of the assessment process.		x	
A.9. The statement of Corporate Governance should include information on the number of meetings of the Board and Committees during the last year, participation of administrators (in		x	

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

person and in their absence) and a report of the Board and Committees on their activities.			
A.10. The statement of Corporate Governance should include information on the exact number of independent members of the Board of Directors or of the Supervisory Board.		X	
A.11. The Board of companies in the Premium Category should establish a Nomination Committee consisting of people without executive position who will lead the procedures for the nomination of new members of the Board and will make recommendations to the Board. Most of the members of the Nomination Committee should be independent.		X	
B.1. The Board should establish an Audit Committee in which at least one member must be an independent non-executive director. Most of the members, including the President, must be proven to have suitable qualifications relevant to the positions and responsibilities of the Committee. At least one member of the Audit Committee should have proven and appropriate accounting or auditing experience. For companies in the Premium Category, the Audit Committee must be composed of at least three members, and most members of the Audit Committee must be independent.		X	
B.2. The President of the Audit Committee should be an independent non-executive member.		X	
B.3. As part of its responsibilities, the Audit Committee should conduct an annual assessment of the internal control system.		X	
B.4. The assessment should consider the effectiveness and comprehension of the internal audit functions, the adequacy of the reports on risk management and internal control submitted by the Audit Committee of the Board, readiness and effectiveness wherewith the executive management		X	

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

settles the deficiencies or weaknesses identified during the internal control and submission of relevant reports to the Board.			
B.5. The Audit Committee must assess the conflicts of interest in connection with transactions of the company and its subsidiaries with related parties.		x	
B.6. The Audit Committee must assess the effectiveness of the internal control and risk management systems.		x	
B.7. The Audit Committee must monitor the implementation of legal standards and internal audit standards generally accepted. The Audit Committee should receive and assess the internal audit reports of the team.		x	
B.8. Whenever the Code indicates reports and analyzes initiated by the Audit Committee, they must be followed by periodic reports (at least annually) or ad hoc, which must be submitted subsequently to the Board.		x	
B.9. None of the shareholders can have preferential treatment over the other shareholders in connection with the transactions and agreements concluded by the company with shareholders and their affiliates.	x		
B.10. The Board should adopt a policy to ensure that any transaction of the company with any of the companies with which it has close relationships whose value is equal to or greater than 5% of the net assets of the company (according to the latest financial report) is approved by the Board following a mandatory review of the Audit Committee of the Board, and disclosed correctly to shareholders and possible investors, to the extent that such transactions fall within the category of events subject to reporting requirements.		x	
B.11. The internal audits should be conducted by a separate structural division (the department of internal auditing) of the company or by hiring an independent third party entity.	x		
B.12. In order to ensure fulfillment of the main functions of the internal audit	x		According to the organizational structure, the internal audit office is

(all amounts are given in lei (RON) unless otherwise stated)

department, this one must report to the Board via the Audit Committee. For administrative purposes and as part of the management obligations to monitor and reduce risks, it must report directly to the CEO.			working under the CEO.
C.1. The company must publish on its website the remuneration policy and to include in the annual report a statement on the implementation of the remuneration policy during the annual period under consideration.		x	In accordance with the provisions of the civil sentence 351/01.02.2022 regarding the management of the activity by the judicial administrator, corroborated with the provisions of art. 103, para. (1) of Law 85/2006 according to which, during the reorganization, the shareholders do not have the right to intervene in the management or administration of the debtor's assets, the GMS has no attributions regarding the establishment of the principles and methods of remuneration used by the Company.
D.1. The company should organize an Investor Relationship Department - widely publicized by the person/persons responsible or as organizational unit. In addition to the information required by the law, the company must include on its website a section dedicated to relationship with the investors, in Romanian and English, with all relevant information of interest to investors, including:		Partial	According to the organizational structure of the company, the persons who have responsibilities in terms of the relationship with the shareholders are integrated within the Controlling Department and the General Secretariat. In terms of the relationship with the investors, this will be provided, when it is appropriate, by the Consortium of Judicial Administrators.
D.1.1. Main corporate regulations: memorandum of association, procedures for the general meetings of shareholders;	x		
D.1.2. Professional CVs of the members of management bodies of the company, other professional commitments of Board members, including executive and non-executive positions on the boards of companies or non-profit institutions;		Partial	
D.1.3. Current reports and periodic reports (quarterly, half-yearly and yearly) - at least those specified in paragraph D.8 - including current reports with detailed information on non-compliance with this Code;	x		
D.1.4. Information about the general meetings of shareholders: agenda and informative literature; procedure for the selection of Board members;	x

(all amounts are given in lei (RON) unless otherwise stated)

arguments supporting proposals for the candidates selected for the Board, together with their professional CVs; questions of the shareholders regarding items on the agenda and responses from the company, including decisions adopted;			
D.1.5. Information on corporate issues such as payment of dividends and other distributions to shareholders, or other issues that lead to acquisition or limitation of the rights of a shareholder, including the deadlines and principles applied to these operations. This information will be published in sufficient time to allow investors to take investment decisions;		x	There were no corporate events.
D.1.6. Name and contact details of the person who can provide, upon request, relevant information;	x		
D.1.7. The statements of the company (e.g. for the investors, the quarterly results, etc.), financial statements (quarterly, half-yearly, yearly), audit reports and yearly reports.	x		They are available on the company website.
D.2. The company will have a policy related to yearly distribution of dividends or other benefits to shareholders, as proposed by the CEO or the Executive Board and adopted by the Board, as a set of guidelines that the company intends to follow in connection with the distribution of net profits. The principles of yearly policy in connection with distribution to shareholders will be published on the website of the company.		x	This is not the case given the losses from previous periods to be covered in the future.
D.3. The company will adopt a policy regarding forecasts, whether they are made public or not. The forecasts refer to the quantified conclusions of the studies aimed to establish the overall impact of a number of factors relating to a future period (the so-called hypotheses): by its nature, this project has a high level of uncertainty; the actual results may differ significantly from the forecasts presented initially. The forecasting policy will establish the frequency, the		x	The company is in the period of observation and the forecasting policy will be subject to the reorganization plan which, if validated, will be available on the Company's website.

(all amounts are given in lei (RON) unless otherwise stated)

period under consideration and the content of forecasts. If published, the forecasts can be included only in the yearly, half-yearly or quarterly reports. The forecasting policy will be published on the website of the company.			
D.4. The rules of the general meetings of shareholders should not restrict participation of shareholders in general meetings and the use of their rights. Changes to the rules will enter into force, at the earliest, from the next meeting of shareholders.	x		
D.5. The external auditors will be present at the general meeting of shareholders when their reports are discussed.		Partial	
D.6. The Board will present to the yearly general meeting of shareholders a brief assessment of the internal control system and management of significant risks and opinions on issues subject to the decision of the general meeting.		x	Not applicable in insolvency proceedings
D.7. Any specialist, consultant, expert or financial analyst may attend the meeting of shareholders, based on a prior invitation from the Board. Accredited journalists may also participate in the general meeting of shareholders, unless the President of the Board decides to the contrary.		x	The Company will comply with, if the agenda of the meeting includes matters of public interest that will be submitted for approval.
D.8. The quarterly and half-yearly financial reports will include information, both in Romanian and in English, on the key factors that influence changes in the level of sales, operating profit, net profit and other relevant financial indicators, both from one quarter to another and from year to year.	x		
D.9. A company will hold every year at least two meetings/teleconferences with analysts and investors. The information presented on these occasions will be published in the section Relationship with the Investors of the company's website at the date of meetings / teleconferences.		Partial	It has been deemed that the information submitted and all current and periodic reports published on the website allow the shareholders and investors to make grounded choices.
D.10. If a company supports various		x	During the insolvency period, the

Conclusions

In 2021 SC UCM Resita SA continued its activity according to the status of company in insolvency proceedings with the intention of reorganization but retained the right to manage, through the Special Trustees, under the supervision of the Judicial Trustee.

On 05.07.2021, the judicial administrator submitted to the registry of the Bucharest Tribunal the Final Table of claims of the debtor SC UCM Reșița SA. By Notification no. 545 / 05.07.2021, Judicial Administrator - the consortium formed by insolvency practitioners V.F. Insolvency SPRL and EURO INSOL SPRL of the U.C.M. Resita SA, announced that it has drawn up and posted the Final Table of claims on 05.07.2021 at the registry of the Bucharest Tribunal, Civil Section VII, in the insolvency file no. 75017/3/2011. At the same time, in accordance with the legal provisions, the Judicial Administrator also announced that the reorganization plan can be submitted, with the approval of the general meeting of shareholders, within 30 days from the date of posting the final table of claims.

In this regard, the Extraordinary General Meeting of Shareholders of the U.C.M. Resita SA was convened for 02 / 03.08.2021. As neither on 02.08.2021 nor on 03.08.2021 the quorum conditions necessary for the holding of the general meeting were met, it was not possible to discuss and approve the items on the agenda contained in the convening notice for this meeting, including the one regarding the Reorganization Plan submitted by the debtor UCM Resita.

According to the current Report of 05.08.2021 drawn up in accordance with Law no. 24/2017 and the A.S.F. no. 5/2018 was brought to the attention of the general public that the Judicial Administrator of the U.C.M. Resita SA submitted the reorganization plan of the company to the Trade Register Office and to the registry of the Bucharest Tribunal, in the insolvency file no. 75017/3/2011.

Through the minutes of the Creditors' Meeting no. 1723 / 26.10.2021, published in the Bulletin of insolvency proceedings no. 18035 / 26.10.2021, the Reorganization Plan was approved, by a favorable vote of three categories, out of a total of four categories included in the final table of receivables, respectively it was approved by the category of secured receivables, the category of budget receivables and the category of salary receivables. .

By the civil sentence no. 351 / 01.02.2022 issued by the Bucharest Tribunal, Civil Section VII, in insolvency file no. 75017/3/2011, published in the Bulletin of insolvency proceedings no. 2457 / 09.02.2022, it was confirmed the reorganization plan proposed by the Judicial Administrator for

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

the debtor U.C.M. Resita SA, as approved by the decision of the Creditors' Meeting of 26.10.2021, following that the debtor's activity during the reorganization being led by the Judicial Trustee. Therefore, starting with 02.02.2022, UCM Reșița SA entered into reorganization, its activity being led by the Judicial Administrator - EURO INSOL SPRL and VF Insolvență SPRL Consortium. The client Romelectro SA also failed during 2021 to unblock the Stejaru HPP project which final beneficiary is SPEEH Hidroelectrica.

Within this project, UCM Resita, as a subcontractor of Romelectro, executed the equipment for GD 1 and GD 2 according to the execution schedule agreed by the contract, but for technical reasons, independent of the Company, the contract suffered very long delays, UCM Resita being unable to deliver the achieved landmarks, amounting to 7.2 million lei

In the first quarter of 2021, UCM Resita participated, as a subcontractor of SSH Hidroserv, in the tender for modernization works for turbine, Arcești HPP RAV and HA2 hydrogenerator, with a commercial offer worth 15.6 million lei. The consortium leader - Hidroserv was disqualified by the evaluation commission, due to the non-fulfillment, at the level of 2019, of the minimum general liquidity criterion imposed by the contracting authority.

During May 2021, UCM Resita participated, as a subcontractor of SSH Hidroserv, in the tender for modernization works for the turbine, hydrogenerator and auxiliary installations HA2 Vaduri HPP, with a commercial offer worth 17.8 million lei. Due to exceeding the budget for the works to be carried out by SSH Hidroserv, the general offer submitted by SSH Hidroserv, which also included the offer of UCM Resita, did not fit into the budget granted by the contracting authority, the tender being canceled, with the intention of resumption .

Moreover in May 2021, the company prepared and sent to Hidroelectrica the offer worth 2.4 million lei for turbine rotor and turbine shaft at Costișa HPP, postponed for 2022.

During 2021, UCM Resita submitted, at the request of SPEEH Hidroelectrica, the following two budget commercial offers, on the basis of which the tender procedures in the electronic public procurement system were to be initiated, which in fact did not happen:

- the offer worth 4.7 million lei for LN4D works at HA1 Porțile de Fier HPP
- the offer worth 6.5 lei for the rehabilitation and modernization of HA2 Remeți HPP

In November 2021, the company concluded with SSH Hidroserv the contract, for the elaboration of the project for the execution and rehabilitation of the flat wheel running wheels 6x6 / 31.5 - left Roman gate Portile de Fier I, worth 0.3 million lei, which will run in 2022.

A significant weight in the financial result registered by the Company in 2021 is the adjustment of the accounting records from the debt sphere with the amounts admitted in the final table of receivables displayed on 05.07.2021 at the Bucharest Court Registry, an operation that generated a net loss of 5,509,777 lei.

Another value with major impact in the profit and loss account of 2021 is determined by the establishment of adjustments for the depreciation of receivables from uncollected good execution guarantees related to the Slatina HPP and Stejaru HPP projects amounting to 7,614,991 lei, as a result of the opening, on 03.02.2022, of the insolvency procedure on the Romelectro client.

The continuation of the global pandemic situation in 2021 also affected the activity of UCM Resita, mainly due to the large number of illnesses among its own employees, but also of its

**Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021**
(all amounts are given in lei (RON) unless otherwise stated)

collaborators, with chain repercussions on delivery times, both for purchases and deliveries made to the Company.

The company complied with all regulations and legislation issued by the authorities and continued to apply measures to ensure the protection and prevention of the spread of Sars Cov 2 virus.

For the fulfillment of the Civil Sentence no. 5266 issued by the Bucharest Tribunal, Civil Section VII, in file no. 29595/3/2020, published in the Bulletin of insolvency proceedings no. 18199 / 28.10.2021, the Judicial Administrator convened the Extraordinary General Meeting of Shareholders for the date of 15.12.2021 for the revocation of Mr. Cosmin Ursoniu and Mrs. Nicoleta Liliana Ionete from the position of special administrators of U.C.M. Resita SA, and appointed, starting with the same date, in the position of special administrators of the U.C.M. Resita SA Mr. Aurel Băra and Mrs. Sorina Pop. It was also carried out the inventory of the company's patrimony and subsequently handed it over by the former special administrators to the newly appointed special administrators and it was approved the date of 05.01.2022, as the registration date to identify the shareholders affected by the decision of the meeting. By Decision no. 53 / 15.12.2021 of the Extraordinary General Meeting of Shareholders of the U.C.M. Resita SA there were approved all four items on the agenda.

According to the Minutes concluded on the occasion of the Extraordinary General Meeting of Shareholders on 15.12.2021, as well as the Minutes concluded on 20.12.2021, the revoked special administrators handed over the entire management of UCM Resita to the elected special administrators.

By the current Report of 06.01.2022 drawn up in accordance with Law no. 24/2017 and the A.S.F. no. 5/2018 was brought to the attention of the general public that the special administrators of the U.C.M. Resita SA appointed on 15.12.2021 submitted the reorganization plan of the company proposed by the debtors through the special administrators at the registry of the Bucharest Tribunal, in the insolvency file no. 75017/3/2011, as well as a request for reinstatement within the deadline for submitting the reorganization plan.

At the next deadline of 01.02.2022, the court took note of the request to waive the request for reinstatement within the deadline for submitting the reorganization plan submitted by the special administrators Aurel Băra and Sorina Pop

During 2021, SPEEH HIDROELECTRICA continued the action started in the previous year by the consultant Ernst & Young in the Scorilo project, having as object "specialized consultancy services, assistance, due diligence, evaluation and conclusion of active takeover transaction from UCM Resita SA"

As the deadlines initially established have been exceeded, on 01.07.2021 by the address no. 73155.1 Hidroelectrica reconfirmed the interest to take over the assets of UCM Resita, specifying that it passed to the second stage of the consulting contract, respectively the evaluation of the identified assets.

By the end of 2021, this stage has been completed and we have moved on to the third stage of the contract, in which the consultant Ernst & Young must present the solution to complete the transaction.

(in judicial reorganisation, en redressement)

Yearly report of Judicial Administrator
for the accounting year ended on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

After the completion of the third stage, Hidroelectrica will send an offer to UCM Resita, as specified in the address from 01.07.2021.

In accordance with the provisions of Law 53/2003, at the request of the Resita Union 1771, on 28.05.2021 it was signed a Collective Labor Agreement no. 3, registered at the Territorial Labor Inspectorate with no. 24 / 07.06.2021.

Due to entering into the reorganization period, the Bucharest Stock Exchange ordered the reintroduction of UCM Resita shares into trading starting with 09.02.2022.

The legal reserves of the Company, constituted in accordance with the provisions of the Commercial Companies Act, as at 31 December 2021 amount to 1,972,406 RON.

The Company's legal reserve is partially constituted in accordance with the Companies Act, according to which 5% of the annual accounting profit is transferred within the legal reserves until their balance reaches 20% of the Company's share capital. If this reserve is used wholly or partly to cover losses or to distribute in any form (such as the issuance of new shares under the Companies Act), it becomes taxable in the calculation of corporation tax.

We mention that on December 31, 2021, the Company has not yet reached the maximum level of legal litigation.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

1. Reporting entity

General information

IAS 1.138 (a), (b), UCM REȘIȚA S.A. - (company in insolvency, en procedure collective) is a joint stock company with the headquarters in Romania.

IAS 1.51(a)-(c) The separate financial statements, in accordance with IFRS, has been prepared for the accounting year ended on December 31, 2021.

The main activity of *the Company* is the manufacture of engines and turbines (except aircrafts, vehicles and motorcycles) – CAEN Code: 2811.

The Company was incorporated and registered at ONRC based on the Government Decision (GD) no. 1296/1990 completed and modified by GD no. 334/1991, operating under the laws of Romania.

On 31.12.2021, the registered office of UCMR was in Bucharest, Charles de Gaulle Square 15, Charles de Gaulle Plaza Building, 3rd Floor, Peleş Office, Sector 1, as mentioned in Endorsement no. 592087/15.11.2019, registered at ONRC at no. J40/13628/2011, Fiscal Code RO 1056654, and the administrative headquarters in Resita, Golului Street No. 1.

The main activity of *the Company* consists in manufacturing and marketing of hydro power units (hydraulic turbines, valves, governors and hydro generators), hydro mechanical equipment, large hydraulic servomotors, bearings and half-bearing shells, spare parts for Diesel engines and others.

The Company provides also services for the design of new constructive solutions or for the rehabilitation and enhancement of the existing ones, as well as specialized engineering services for technical assistance in areas related to its main field of activity.

The Company's products and services are delivered/delivered both on the domestic market and on the foreign market.

In the domestic market, the main customers are in the hydro power field: S.P.E.E.H. HIDROELECTRICA SA, S.S.H HIDROSERV S.A and ROMELECTRO SA, plus UZIMET SRL, ROSSINI SRL and ALMET INTERNATIONAL LTD SRL. External clients are active both in the hydropower field and in other areas, and are from Austria, France.

The individual financial statements have been prepared starting from the assumption that *the Company* will continue its business without significant changes in the foreseeable future.

2. Basis for preparation of separate financial statements

IAS 1.112(a)

2.1 Declaration of conformity

IAS 1.16 The Separate Financial Statements have been prepared in accordance with the provisions of the Order no. 2844/2016 of the Minister of Public Finance, with respect to the approval of Accounting Regulations in compliance with the International Financial Reporting Standards (IFRS) applicable to companies whose marketable securities are admitted to trading on a regulated market (OMPF 2844/2016)

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

The Judicial Trustee/Administrator of the *Company*, undertake the liability for drawing up the Yearly Separate Financial Statements on 31.12.2021 and confirm that they are in compliance with the applicable Accounting Regulations and *the Company* shall conduct its work under the condition of continuity.

2.2 Basis of evaluation

The Company drawn up the Yearly Separate Financial Statements for the year ended on December 31, 2021 in accordance with OMPF 2844/2016, as amended and supplemented.

These provisions meet the requirements of International Financial Reporting Standards (IFRS) adopted by the European Union (EU), except for IAS 21 The Effects of change in foreign exchange rates on functional currency.

In order to prepare these Separate Financial Statements in accordance with legislative requirements in Romania, the functional currency of *the Company* is considered to be RON ("Romanian leu").

The Separate Financial Statements presented have been prepared on a historical cost basis.

For all periods up to and including the year ended on December 31, 2011, *the Company* has prepared the Separate Financial Statements in accordance with the accounting principles generally accepted in Romania (OMPF 3055/2009, as amended).

The Separate Financial Statements for the year ended on December 31, 2012 were the first of this kind that *the Company* has prepared in accordance with IFRS, year when it was applied also IFRS 1 - "First-time Adoption of IFRS".

These Separate Financial Statements have been audited.

The Company does not apply IFRS issued and not adopted on 31.12.2021, and cannot estimate the impact of non-application of these provisions on the separate financial statements, and intends to apply these provisions only at their entry into force.

Consolidated Financial Statements

In accordance with IAS 27 "Consolidated and Separate Financial Statements", *the Company* should present consolidated financial statements that strengthen the investments in subsidiaries. In preparing the consolidated financial statements should be combined the financial statements of the parent company and those of its subsidiaries, item by item, by adding together all similar items of assets, liabilities, equity, revenues and expenses.

At December 31, 2021, the Company also holds 1 subsidiary, s.c. MULTI-FARM s.r.l. that has as its object the sale of medicines and pharmaceuticals. The *Company* has decided not to present consolidated financial statements, considering that the consolidated financial information, which should be presented in the statement of financial position and overall result as on 31.12.2021, would not significantly differ from the *Company's* individual financial statements on 31.12.2021.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

2.3 Functional currency used for presentation

The items included in the separate financial statements of *the Company* are measured using the currency of the economic environment in which the entity operates ("the functional currency"), that means Romanian leu.

According to IAS 1.51 (d), (e), these separate financial statements are presented in Lei, and all financial information is in Lei, rounded to 0 decimal, unless otherwise stated.

2.4 The use of estimates and professional judgments

Preparation of separate financial statements in conformity with IFRS requires management's use of professional judgments, estimates and assumptions that affect application of accounting policies and the reported amounts of assets, liabilities, revenues and expenses. The actual results may differ from these estimates.

The estimates and assumptions are reviewed regularly. These revisions of the accounting estimates are recognized in the period in which the estimate was reviewed and in future affected periods.

2.5 New International Standards that are not applied by the Company

The Company does not apply certain IFRSs/ IASs or new provisions/modifications/additions/interpretations of them issued by the IASB (International Accounting Standards Board) and not adopted at the date of drawing up the financial statements, namely:

- **IFRS 3 "Business Combinations"** - Amendments updating a reference to the Conceptual Framework (applicable for annual periods beginning on or after 1 January 2022).

- **IFRS 17 "Insurance Contracts"** - Amendments to the initial application of IFRS 17, including amendments to address implementation concerns and challenges that have been identified since the publication of IFRS 17 (applicable for annual periods beginning on or after January 1, 2023);

- **Amendments to IAS 1 "Presentation of Financial Statements"** - Classification of Debts into Short-Term Debts and Long-Term Debts. Amendments to accounting disclosures (applicable for annual periods beginning on or after 1 January 2023);

- **Amendments to IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors"** - regarding the definition of accounting estimates (applicable for annual periods beginning on or after January 1, 2023);

- **Amendments to IAS 12: "Profit Tax"** - amendments to deferred tax on leases and decommissioning obligations (applicable for annual periods beginning on or after January 1, 2023);

- **Amendments to IAS 16 "Tangible fixed assets"** - revenues before expected use (applicable for annual periods beginning on or after January 1, 2022);

- **Amendments to IAS 37 "Provisions, Contingent Liabilities and Contingent Assets"** - Onerous Contracts - Cost of Execution of the Contract (applicable for annual periods beginning on or after January 1, 2022);

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

• **Amendments to various standards due to “IFRS Improvements (2018-2020 Cycle)”** resulting from the annual IFRS Improvement Project (IFRS 1 and IFRS 9) with the primary purpose of eliminating inconsistencies and clarifying certain wording (amendments to IFRS 1 and IFRS 9 are applicable for annual periods beginning on or after January 1, 2022).

The Company cannot estimate the impact of non-application of these provisions on the financial statements and intends to apply these provisions with the date of their entry into force.

Presentation of separate financial statements

The Company applies IAS 1 - "Presentation of Financial Statements" (2007) revised, which entered into force on January 1, 2009.

As a result, in the “Statement of Changes in Shareholders' Equity” *the Company* presents to shareholders all amendments thereto.

The comparative information has been reconciled so that they conform to the revised standard. As the impact of change in accounting policy is reflected only on presentation aspects, there is no impact on earnings per share.

IAS 1 "Presentation of Financial Statements" is governing the basis for presentation of financial statements for general purpose, in order to ensure comparability both with financial statements of the entity for previous periods and with the financial statements of other entities.

a) Basis of accounting and reporting in hyperinflationary economies

The currency used by *the Company* for evaluation and reporting is the “Romanian Leu” (“RON”).

IAS 29 - "Financial Reporting in Hyperinflationary Economies", requires that the statements of companies that are reporting in the currency of a hyperinflationary economy should be made in terms of the current monetary unit at the date of the balance sheet and all amounts must be restated in the same conditions. IAS 29 states that reporting of operating results and financial position in local currency without restatement related to inflation is useless, since the money lose their purchasing power so quickly that a comparison between the value of transactions or of other events that occur at different moments, even within the same reporting period, is wrong. IAS 29 suggests that an economy should be considered hyperinflationary if certain conditions are met; one of them being that the cumulative rate of inflation over a period of three years exceeds 100%.

By December 31, 2003 adjustments were made to reflect the application of IAS 29 "Financial reporting in hyperinflationary economies".

Implementation of IAS 29 to specific categories of transactions and balances in the financial statements is presented below:

Monetary assets and liabilities

Monetary assets and liabilities have not been reassessed for the implementation IAS 29 since they are already expressed in terms of the current monetary unit at the date of the balance sheet.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

Non-monetary assets and liabilities and equity

Equity components have been restated by applying the inflation index for the month in which the assets, liabilities and equity components were initially recorded in the financial statements (the date of purchase or contribution) until December 31, 2003. The remaining non-monetary assets and liabilities are not restated using the inflation index, considering that their value is updated as a result of the application of alternative accounting treatments of evaluation during the previous periods.

b) Estimates and assumptions

Preparation of individual financial statements in conformity with IFRS requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities, of contingent assets and liabilities at the date of the financial statements and of the reported amounts of revenues and expenses registered during the reporting period. The actual results may be different from these estimates. The estimates are periodically reviewed and, if adjustments are required these are reported in the profit and loss account for the period in which they become known.

The uncertainties related to these estimates and assumptions may cause, in the future, significant adjustments of the values presented in the financial statements, as a result of insolvency proceedings which *the Company* is involved.

These adjustments are likely to significantly affect *the Company's* assets that can no longer be achieved under normal operating conditions, in this case being required a massive depreciation in value (possibly more than 50%) due to the very probable recovery by enforcement and / or by the procedure of insolvency, a situation that causes a corresponding damage to the profit and loss account.

In the process of applying *the Company's* accounting policies, the management has made estimates for provisions, impairment of receivables and stocks, which have significant effect on the values stated in the individual financial statements.

c) Registered capital

The shares held by the Company are classified (shown) at nominal values and, in accordance with the Law of Trading Companies (*L 31/1990*) and the articles of incorporation their total value is to be found in the registered capital.

The dividends on holdings of shares (capital), established under Decision of AGA, are recognized as a liability in the period in which their distribution is approved.

d) Equity papers in affiliated entities

The investments held in affiliated entities are presented in the separate financial statements of *the Company* at cost less any impairment.

The dividends receivable from affiliated entities are recognized when *the Company* established the right to receive payment.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

e) Tangible fixed assets

Recognition and measurement of fixed assets

The fixed assets, except lands and buildings, are recognized according to the requirements of OMFP 2844/2016 and are shown in the accounts at cost, less the accumulated depreciation and the impairment losses.

The buildings are stated at fair value based on periodic assessments, at least every three years, carried out by independent external evaluators. Any accumulated depreciation at the date of revaluation is eliminated from the gross carrying amount of the asset and the net amount is recorded as revalued amount of the asset.

The buildings are stated at revalued amounts on 31.12.2014 and the lands at revalued amount on 31.12.2011.

If a fixed asset includes significant components that have different useful lives, they are accounted (depreciated) individually.

Subsequent expenses on maintenance and repairs

The expenses with repairs or maintenance of fixed assets are made to restore or maintain the value of these assets and are recognized in the comprehensive income on the date they are made, while the expenses made in order to improve the technical performance are capitalized and depreciated over the remaining period of depreciation for that fixed asset.

Depreciation

The fixed assets are depreciated from the month following the date of purchase or the date of commissioning, as appropriate, using their lifetime periods.

Depreciation is calculated using the straight-line method over the lifetime of the fixed assets and/or their components, which is accounted separately.

The terms of depreciation used are as follows:

- | | |
|--------------------------------------------|--------------|
| • Constructions | 6 – 50 years |
| • Equipment and machinery | 2 – 28 years |
| • Other installations, tools and furniture | 2 – 15 years |

The land and fixed assets in progress are not depreciated and the ongoing investments are depreciated from the date of commissioning.

The estimated useful lives and the depreciation method are reviewed periodically to ensure they are consistent with the projected evolution of economic benefits generated by the tangible assets. Tangible assets are derecognized from the balance sheet when the asset exits the equity or when no benefits are expected from the use of the asset. Losses or gains on disposal/sale of fixed assets are recognized in the statement of the comprehensive income.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

f) Intangible assets

Recognition and evaluation

The intangible assets acquired by *the Company* are recognized and presented at cost, less accumulated depreciation and impairment losses.

Depreciation

Depreciation is recognized in the comprehensive income, on a straight line basis, over the estimated lifetime (service life) of the intangible asset.

Most of the intangible assets recorded by *the Company* are represented by the software programs, which are depreciated linearly over a period of 3 years.

g) Depreciation of the value for non-financial assets

According to IAS 36 Depreciation of Assets, the value of tangible and intangible assets is reviewed annually to identify circumstances that indicate their depreciation.

Whenever the net value of the asset exceeds its recoverable amount, depreciation of its value is recognized in the statement of the comprehensive income for tangible and intangible assets.

The recoverable amount represents the highest value between the net selling price of an asset and its value in use. The net selling price represents the amount obtainable from the sale of the asset in a normal transaction, and the value in use represents the present value of future cash flows estimated if continuing to use the asset and from its sale at the end of its service lifetime. The recoverable amounts are estimated for individual assets or, if this is not possible, for the cash-generating units. Reversal of impairment losses recognized in previous years may occur when there is an indication that the impairment losses recognized for that asset no longer exist or has decreased; the cancellation shall be recorded as revenue.

h) Financial assets

In accordance with IAS 39 "Financial Instruments: Acknowledgment and assessment", *the Company's* financial assets are classified into the following categories: held-to-maturity and loans and receivables originated by *the Company*.

The investments with fixed or determinable payments and fixed maturity, other than loans and receivables originated by *the Company*, are classified as held-to-maturity.

These financial assets are recognized in the historical cost or at the value determined by their acquisition contract, the cost of acquisition including also the transaction costs, the gains and losses being recognized in the statement of the comprehensive income when the financial assets are derecognized or impaired, as well as through the depreciation process.

Derecognizing of financial assets occurs when the rights to receive cash flows from the asset have expired, or *the Company* has transferred its rights to receive cash flows from the asset (directly or through a "pass-through" commitment). All normal purchases and sales of financial assets are recognized at the transaction date, i.e. the date when *the Company* commits to purchase an asset.

Regular purchases and sales are those that require delivery of assets within the period generally accepted by the regulations or conventions valid on that market.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

The Company has no financial assets at fair value registered in the profit and loss account or financial assets available for sale.

i) Financial debts

In accordance with IAS 39 "Financial Instruments: Recognition and Measurement", *the Company's* financial debts are classified into the following categories: loans, trade debts and other debts.

The trade debts are stated at nominal amounts payable for goods or services received. Short and long term loans are initially recognized at the nominal value, representing the amount received under this head, not including the specific costs (fees, interest).

The gains and losses are recognized in the statement of the comprehensive income on derecognizing of debts, as well as through the depreciation process. Derecognizing of financial debts occurs if an obligation is fulfilled, canceled or expires. The financial assets and debts are compensated only if *the Company* has a legally enforceable right to make compensations and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

j) Debts related to leasing contracts

Financial leasing contracts

The leasing contracts in which *the Company* takes substantially the risks and benefits of ownership are classified as financial leasing. The amounts due are included in the short or long term debts, the elements of interest and other costs of financing being recorded in the profit and loss account during the contract period. Assets held under the financial leasing contracts are reflected in the accounting system using the accounts of tangible and intangible assets and are depreciated over their useful lifetime.

The rates paid to the lessor plus the interest is highlighted as a debt in the account 406 "Debts from operations of financial leasing".

Operating leasing contracts

The leasing contracts in which a significant portion of the risks and benefits of ownership are assumed by the lessor are classified as operating leasing contracts, the payments (expenses) made under such contracts being recognized in the comprehensive income on a straight-line basis during the contract period, the leased assets are recorded in the accounting system of the lessee, in the off-balance sheet accounts.

k) Transactions in foreign currency

Functional currency and presentation currency: the financial statements of *the Company* are prepared using the currency of the economic environment in which operates.

The functional currency and the currency used for presentation of financial statements is the Romanian leu ("RON").

Transactions in foreign currency are translated into RON applying the exchange rate at the transaction date. The monetary assets and liabilities denominated in foreign currencies are revalued in RON at the exchange rate at the balance sheet date.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

The gains and losses resulting from differences in foreign exchange rate, realized or unrealized, are recorded in the statement of the comprehensive income.

The exchange rates on December 31, 2020 and 2021 are as follows:

Currency	<u>December 31, 2020</u>	<u>December 31, 2021</u>
RON/EUR	4.8694	4.9481
RON/USD	3.9660	4.3707
RON/GBP	5.4201	5.8994
RON/CHF	4.4997	4.7884

l) Stocks

The stocks are recorded in the accounting system at the minimum value between the cost and the net realizable value.

The net realizable value represents the estimated selling price to be received under ordinary course of activity, less the costs related to sell.

The value of stocks is based on the weighted average cost, including expenses incurred in acquiring them and bringing to the current location, and in the case of stocks produced by *the Company* (semi-finished and finished goods, work in progress); the cost includes an appropriate percentage from the indirect costs, depending on the organization of production and the current activity. The inventory method used is that of "perpetual inventory".

At the annual inventory of stocks, the Company identifies the stocks that are not intended for sale contracts in progress or have not been identified as useful in current manufacturing costs or future projects.

The Company's management analyzes and proposes/decides the adjustments (depreciation) of stocks according to the accounting policy approved in this respect and the results of the inventory.

The inventory of stocks shall be made according to the internal procedure and the inventory manual, related both to the needs of *the Company* and the law in force.

m) Receivables

Trade receivables are stated at their nominal value less the adjustments for their depreciation, the adjustments that are carried out where there is objective data and information about the fact that *the Company* will not be able to collect all amounts in due time.

The Company records depreciations of 100% for trade receivables older than 360 days and for those in dispute.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

n) Cash and cash equivalents

The cash includes the cash in hand and in bank accounts. Cash equivalents are short-term investments, highly liquid, which can be quickly converted into a sum of money, with the original maturity of maximum three months and have an insignificant risk of change in value.

Records of them are kept on banks, currencies, respectively on pay desks and cash advances holders being evaluated, in case of foreign currency by using their exchange rate (reference rate) with the national currency (RON) released by the National Bank of Romania (BNR).

o) Debts

The debts are initially recognized at the fair value of the consideration to be paid and include the payable amounts, invoiced or not, for goods, works and services.

q) Loans

The costs related to loans are recorded as an expense in the period in which they occur, except the case when the loans are for the construction of assets that are qualified for capitalization. *The Company* classifies its loans on short-term and long-term, depending on the maturity specified in the credit agreement.

The loans are initially recognized at the net value of withdrawals. They are subsequently carried at the depreciated cost, using the method of effective interest rate, the difference between the value of withdrawals and the redemption value being recognized in the net profit of the period, during the entire loan period.

p) Government grants

Government grants are recognized when there is reasonable assurance that the grant will be received and all conditions attached will be satisfied. When the grant relates to an expense item, it is recognized as income over the period necessary to correlate, on a systematic basis, the grant with the costs to be offset. When the grant relates to an asset, it is recognized as deferred income and taken to income in equal amounts over the expected life of the related asset.

When *the Company* receives non-monetary grants, the asset and the grant are recorded at gross and nominal values and they are reflected in the overall result over the expected life and the consumption rate of the benefit afferent to the support asset, in equal annual installments. When loans or similar forms of assistance are provided by the government or similar institutions at an interest rate below the rate applicable on the market, the effect of this favorable interest is regarded as additional government grant.

r) Benefits of employees

Short-term benefits:

The Company contributes for its employees by paying contributions to Social Security (retirement, health) giving them some benefits upon retirement, according to the period of work in the company (a reward up to 4 gross salaries per company for a seniority over 25 years in UCM Resita, respectively up to 2 average gross salaries per company for a seniority between 10-25 years in UCM Resita, respectively 1 average gross salaries per company for a seniority

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

between 5-10 years in UCM Resita). These contributions are recognized as an expense when the services are rendered.

In addition to the grants and allowances provided expressly by law, *the Company* grants to its employees the following benefits:

- granting of bereavement benefits representing four average gross wages per company upon the death of an employee of *the Company* and one average gross salary per company in case of death of the husband (wife) or of a first degree relative (parents, children);
- granting of two average gross wages per *Company* for the birth of each child;
- granting of one average gross salary per to the dismissal of an employee for whom it was issued a decision by the relevant medical expertise finding physical and/or mental inability thereof, which does not allow him to fulfill his duties appropriate to the position held.

Post employment benefits –plan for retired pay:

The Company does not contribute to any other plan for retired pay or retirement benefits and has no other future obligations such as those mentioned, for its employees.

s) Profit tax

The tax on profit or losses of the year comprises current tax and deferred tax. The assets and liabilities for current profit tax, for current and prior periods, are recognized at the value expected to be reimbursed by or paid to the taxation authorities.

The current profit tax is calculated in accordance with tax legislation in force in Romania and is based on the results reported in the statement of the comprehensive income of *the Company*, prepared in accordance with local accounting standards, after adjustments performed for tax purposes. The current profit tax is applied to the accounting profit, as adjusted in accordance with tax legislation at a rate of 16%.

The tax losses may be carried forward for a period of seven years.

The deferred profit tax reflects the tax effect of temporary differences between the carrying amount of assets and liabilities used for financial reporting purposes and the tax values used in order to calculate current profit tax. The deferred profit tax, recoverable or payable, is determined using tax rates that are expected to be applicable in the year in which the temporary differences will be recovered or settled. Assessment of the deferred profit tax, payable or recoverable, reflects the tax consequences that would follow from the manner in which *the Company* expects to realize or settle the carrying amount of its assets and liabilities at the date of the balance sheet.

The assets and liabilities from the deferred tax are recognized regardless of when the temporary differences are likely to be realized.

The assets and liabilities from the deferred tax are not updated. The assets from the deferred tax are recognized when it is probable that there will be sufficient future taxable profits against which the deferred tax can be used. The liabilities from the deferred tax are recognized for all taxable temporary differences.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

s) Recognition of revenues and expenses

The revenues from sale of goods are recognized in the comprehensive income at the date when the risks and benefits of ownership on the goods are transferred to the buyer which, in most cases, coincides with the date of invoice (delivery) thereof.

The revenues from the goods sold (delivered) and services rendered are recognized on an accrual basis, respectively at the date of delivery/provision (transfer of ownership) to the customer.

The revenues from interest are recognized in installments (proportionally) as they are invoiced/are generated according to contracts/agreements under which the loans were granted on an accrual basis.

The revenues are recognized when there is no significant uncertainty regarding recovery of the counter benefits due and associated costs or possible returns on the assets.

The expenses are classified and recognized based on the principle of their connection to revenues, respectively their allocation on products, services which make these revenues.

The production cost of stocks is followed on projects and, within these projects, on each individual product and includes direct costs related to production (direct materials, direct labor, and other direct costs attributable to products, including design costs) and the share of indirect costs of production allocated rationally as related to their manufacture.

The general administrative expenses, selling expenses and unallocated share of fixed overhead products (indirect production costs that are relatively constant, regardless of the volume of production) are not included in the cost of stocks but are recognized as expenses in the period in which they occurred.

The Company applies the principle of separation of accounting years for the recognition of revenues and expenses that are classified in three categories (operational, financial and exceptional).

t) Fair value of financial instruments

The management believes that the fair values of *the Company's* financial instruments are not significantly different from their carrying values, due to the short terms of settlement, reduced transaction costs and/or the variable interest rate that reflects current market conditions.

u) Provisions

A provision is recognized when, and only when *the Company* has a current obligation (legal or constructive) as a result of a past event and if it is probable (more likely to succeed than not be realized) as an output of resources embodying economic benefits, will be required to settle the obligation, and it can make a reasonable estimate of the amount of the obligation.

The provisions are reviewed at the end of each accounting year and are adjusted to reflect the current best estimate.

When the effect of money value in time value is significant, the value of the provision is the present value of the expenses required to settle the obligation.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

u) Contingent debts or assets

The contingent debts are not recognized in the financial statements. They are disclosed in notes, unless the case when the possibility of an outflow of resources embodying economic benefits is very small.

A contingent asset is not recognized in the financial statements but is disclosed in notes when an inflow of economic benefits is probable.

v) Subsequent events

The events subsequent to the date of the balance sheet are those events, favorable and unfavorable, that occur between the date of the balance sheet and the date when the financial statements are authorized for issue.

The events subsequent to the date of the balance sheet that provide additional information about *the Company's* position at the date of the balance sheet are subsequent events that led to adjustment of the financial statements.

The events subsequent to the date of the balance sheet that provide information about the conditions that arose after the balance sheet date don't require adjustment of the financial statements and are disclosed in the notes, if they are significant.

w) Affiliated parties

A party is considered to be affiliated if by ownership, contractual rights, and family relationship, or otherwise, has the power to control directly or indirectly or to influence significantly the other party.

Affiliated parties include also individuals such as main owners, management and members of the Board of Directors and their families.

According to the International Financial Reporting Standards, **an entity is affiliated to a reporting entity if it meets any of the following conditions:**

- The entity and the reporting entity are members of the same group;
- An entity is an associate or joint venture of the other entity;
- Both entities are joint ventures of the same third party;
- An entity is a joint venture of a third entity and the other is an associate of the third entity;
- The entity is a post-employment benefit plan for the benefit of the reporting entity's employees or an entity affiliated to the reporting unit. If the reporting entity itself represents such a plan, the sponsoring employers are also affiliated with the reporting entity;
- A person who has control or joint control over the reporting entity, has significant influence over the entity or is a member of the key personnel of the entity's management;
- The entity is controlled or jointly controlled by a person or an affiliate member of its family, if that person:
 - Has control or joint control over the reporting unit;
 - Has significant influence over the reporting entity, or

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

- Is a member of the key management personnel of the reporting unit or of a parent company of the reporting entity.

x) Correction of accounting errors

Accounting errors found in the financial statements at the date of their drawing up may refer either to the current accounting year or in previous accounting years, correction will be performed at the date when becoming aware of them.

When recording the operations required to correct the accounting errors, are applied the provisions of IAS 8 – “Accounting Policies, Changes in Accounting Estimates and Errors”, stating that the entity must correct retrospectively significant errors of the period in the first set of financial statements which publication was approved after their discovery, by means of: restating the comparative amounts for the prior period presented in which the error occurred or if the error occurred before the first prior period.

According to OMFP 2844/2016, correction of errors related to previous accounting years does not require publication of the revised yearly financial statements for that accounting year, and their correction is performed based on the retained earnings account, without affecting the result of the current accounting year.

The correction of the errors related to the current financial year, is carried out, before the approval of the annual financial statements, by reversing (the registration in red/with the minus sign or by the method of the reverse registration) of the incorrectly recorded operation and, at the same time, the corresponding recording of the operation in question.

y) Reserves

The Company creates legal reserves according to Art. 183 of Law 31/1990.

Given the provisions of OMFP 2844/2016, *the Company* creates legal reserves from the profit of the entity, within the quotas and limits set by the law, but also from other sources provided by the law.

The Company considered necessary a change in the accounting policy for recognizing the surplus from revaluation of tangible fixed assets in order to incorporate it into a separate reserve account, as the assets are used by *the Company* (in proportion as they are depreciated), respectively when the assets are out of the accounting records.

Thus, starting with 2010, it was decided to recognize as realized the differences from revaluation of fixed assets in proportion as they are depreciated.

3. Fixed assets

The amounts (gross, net), depreciation, composition and other relevant issues relating to the movement of fixed assets during the financial year ended 31.12.2021 are presented below.

3.1 Intangible fixed assets

The statements of movement and depreciation of intangible fixed assets in the accounting year 2021 are presented in Tables 1, 2 and 3 below.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

Table no. 1 – Inputs and outputs of intangible fixed assets (gross values)

- lei -

Explanations	31.12.2020	Inputs	Transfers	Outputs	31.12.2021
0	1	2	3	4	5=1+2-3-4
Other intangible fixed assets	10, 663,335	5,929	-	1,492,432	9,176,832

Table no. 2 – Cumulative depreciation of intangible assets

- lei -

Explanations	31.12.2020	Costs with depreciation	Cumulative depreciation of outputs	31.12.2021
0	1	2	3	4=1+2-3
Other intangible fixed assets	(10, 659,924)	(3,539)	1,492,432	(9, 171,031)

Table No. 3 – Net accounting values of intangible assets

- lei -

Explanations	31.12.2020	31.12.2021
0	1	2
Other intangible fixed assets	3,410	5,801

The lifetimes used to calculate depreciation of intangible assets are of 3 years.

The depreciation method used is the linear one.

The composition of intangible assets balance consists mainly of software programs, licenses for production design, contributed in kind to the registered capital in 2005, and by capitalization of several services for Oracle implementation.

3.2 Tangible fixed assets

The statements of movement and depreciation of tangible fixed assets in the accounting year 2021 are presented in Tables 4, 5 and 6 below.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

Table no. 4 – Inputs and outputs of tangible fixed assets (gross values)

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

Table no. 6 – Net accounting values of tangible fixed assets

- lei -

No.	Explanations	01.01.2020	31.12.2021
0.	1	2	3
1.	Land and land improvement	45,089,630	45,040,470
2.	Buildings	75,103,274	70,771,417
3.	Equipment	1,854,729	1,723,891
4.	Furniture and others	17,210	9,783
5.	Fixed assets under construction	914,941	914,941
6.	Adjustments for depreciation of fixed assets under construction	(371,476)	(371,476)
	TOTAL (1+2+3+4+5+6)	122,608,308	118,089,026

At 31.12.2021 the Company owns, mainly:

Land, total area of 537,754 square meters;

Buildings, with a developed area of 226,532 square meters, and built from the ground surface of 144,099 square meters;

Technological equipment specific for machine building industry, numbering over 1,400 pieces.

The lifetimes used to calculate the depreciation of tangible assets are established according to Government Decision no. 2139/30.11.2004 (GD 2139/2004), for buildings being between 8–50 years, and for equipment between 8–24 years, the depreciation method used being the linear one.

Revaluation of fixed assets

The tangible fixed assets, such as buildings and special constructions, were reassessed on 31.12.2014 by s.c. Darian DRS S.A., an ANEVAR member company.

The Company chose as method to reflect the results of revaluation in the accounting system, canceling of cumulative depreciation up to the date of revaluation and presentation of tangible fixed assets, such as buildings and special constructions, at fair values.

The tangible fixed assets, such as lands, were revalued on 31.12.2011 by s.c. FD Capital Management, a company member of ANEVAR.

The changes of the revaluation reserves during the financial year are presented below in Table no. 7

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

Table no.7 - Statement of changes in revaluation reserves

-lei-

No.	Explanations	31.12.2020	31.12.2021
0	1	2.	3.
1.	Revaluation reserves at the beginning of the accounting year	135,089,259	130,468,666
2.	Differences in revaluation reserves transferred into reserves as the assets are depreciated during the year and at deregistration of assets	(4,471,874)	(4,094,221)
3.	Revaluation differences recorded during the accounting year as a result of revaluation	-	-
4.	Revaluation reserves at the end of the accounting year (4=1+2+3)	125,996,792	121,902,571

Reductions in the revaluation reserve during the year of 4,094,221 lei refers to the revaluation differences that have been transferred to the account 1175 - "Retained earnings representing the surplus from revaluation reserves", according to the provisions of IFRS, as the assets are depreciated, in accordance with the policy adopted by the *Company* as well as to the transfer of the revaluation reserve of 46.884 lei of the land removed from the *Company's* records.

Within 1990-1995, *UCMR*, like all state-owned companies, was forced to revalue the equity of the company and the increase of the registered capital in accordance with the methodology developed by HG 945/1990, HG 26/1992 and HG 500/1994. In 2012, by applying IAS 29 – "Financial reporting in hyperinflationary economies", began adjustment of the revaluation differences included in the registered capital, according to the regulations listed above, in total amount of 13,094,760 lei, amount that was reclassified to revaluation reserves included in the registered capital.

The Company did not keep all data related to historical cost (purchase) of tangible fixed assets and, therefore, cannot provide information of this kind (gross values at historical cost, depreciation).

Tangible fixed assets pledged and restricted

The *Company* holds at the date of these financial statements pledged and mortgaged assets in favor of A.A.A.S. (taken over from A.N.A.F) and in favor of Serraghis Loan Management Ltd. (taken over from B.C.R).

On 31.12.2021 the net book value of the tangible assets representing Serraghis Loan Management Ltd. guarantee is 49,061,763 lei (25,807,173 lei constructions and 23,254,590 lei lands) and those of A.A.A.S. guarantee is 35,053,877 lei (25,620,087 lei for constructions and 9,433,790 lei for lands)

No new pledges or mortgages were introduced in 2021.

3.3 Financial assets

Statement of equity papers held at other entities (affiliated), respectively of their value adjustments are shown in Table No. 8 below.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

Table no. 8 – Investments (shares) in subsidiaries

-lei -

No.	Explanations	31.12.2020	31.12.2021
0	1	2	3
1.	S.C. MULTI-FARM Ltd., Resita	17,000	17,000
	TOTAL OF NET VALUE	17,000	17,000

On 31.12.2021, *the Company* had the following subsidiaries:

S.C. MULTI-FARM Ltd., a company registered in the Trade Register under no. J11/799/2004, in which *the Company* holds 70.8333% of the shares.

The main object of activity is the retail trade of pharmaceutical products.

Table No.9 below shows the statement of equity papers held by *the Company* in other entities.

Table no. 9 – Equity papers held in other entities

-lei -

Explanations	31.12.2020	31.12.2021
Romanian Commodities Exchange	23,000	23,000
TOTAL	23,000	23,000

The Company has shareholding in Romanian Commodities Exchange (BRM), holding 23 shares with a nominal value of 1,000 lei per share, representing 0.29% of BRM capital.

Other financial assets

The performance bond guarantees are retained by customers for the goods supplied by *the Company*, which may be returned only after the deadlines, provided that all the contractual clauses are fulfilled.

Generally, 70% of the performance bond guarantee value shall be returned after concluding the minutes of putting into operation, and the difference of 30% will be returned at 24 months after commissioning.

The performance bond guarantees with maturity less than one year, amounting 6,988,328 lei, with the value of adjustment in amount of 5,834,343 lei related to guaranties due and unpaid on 31.12.2021 are included in the trade receivables. (see Note no. 4).

Table no.10 shows the statement of performance bond guarantees (other fixed assets).

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

Table no. 10 - Performance bond guarantees recoverable in a period longer than 1 year
- lei -

3.	Adjustments for impairment of other receivables	-	-
	TOTAL (1+2+3)	12,654,903	10,621,256

SSH Hidroserv SA made the payments to UCM Resita according to the distribution schedule in the reorganization plan, which determined the reduction of the guarantees of good execution and at the same time of the depreciation adjustments for all the amounts of guarantees received during 2021.

By concluding the hearing pronounced on 03.02.2022, by the Bucharest Tribunal in the file 909/3/2022, it was ordered the opening of the general insolvency procedure against SC ROMELECTRO SA. As a result, impairment adjustments were recorded for the outstanding performance guarantees not received on 31.12.2021 related to the Slatina and Stejaru HPP projects, carried out together with Romelectro SA for the entire value of 7,614,991 lei. The company is to register for the credit table by 21.03.2022 at the latest.

4. Receivables

The statement on the main receivables and payables of *the Company* is presented below.

Table no. 11 below shows the statement of trade receivables and other receivables, respectively the adjustments (depreciation) thereof.

Table No. 11 – Receivables and adjustments (their depreciations)

- lei -

No.	Explanations	Balance at 31.12.2020	Balance at 31.12.2021	Liquidity term

9	TOTAL NET VALUES OF RECEIVABLES (7+8)	13,828,425	15,128,546	15,128,546	-
10	TOTAL NET VALUES OF RECEIVABLES (3+6+9)	19,607,200	19,810,205	19,810,205	-

On 31.12.2021 the main customers stated on the in balance, from which *the Company* has to collect trade receivables are: S.S.H. Hidroserv Hațeg Hydropower Services and Repairs Department (346,428.65 lei lei), S.S.H. Hidroserv Sebeș Hydropower Services and Repairs Department (183,910.50 lei), Resita City Hall (233,755.83 lei).

The Company applied the principle of prudence and adjusted through depreciation the entire amount of uncertain receivables of 15,344,327 lei.

Under "Other receivables" the highest values represent the receivables for deferred tax and the debtors from loans granted by *the Company*, respectively Sports Club UCM Resita, in amount of 14,727,010 lei (13,099,046 lei representing the balance of the loan granted and 1,627,964 lei the balance of the interest receivable), amount for which *the Company* made adjustments for depreciation since 2011.

According to the International Financial Reporting Standards, *the Company* has recorded deferred profit tax recognized as a liability for all taxable temporary differences.

Thus, the *Company* recorded at the end of 2021 deferred tax receivables in the total amount of 13,721,204 lei representing the deductible temporary differences related to the adjustments and provisions recorded at the date of these notes, as well as a debt in the total amount of 25,794,350 lei, representing the difference between the tax base and the tax amortization.

5. Stocks

The status and structure of current assets, such as stocks, is shown in the table no 12:

Table no. 12 - Stocks and their value adjustments

- lei -

No.	Explanations	31.12.2020	31.12.2021

17	Total net value (8+16)	23,466,340	22,369,790

In 2021 stocks of raw materials and materials registered an increase of 1,331,214 lei (variation row 1 to row 4) mainly due to the fact that at end of the previous year there were supplied materials for Stejarul, Slatina and Clocotiș projects, materials that were used during the year at their execution. consumption of materials supplied.

Adjustments for the depreciation of raw materials and materials decreased by 192,985 lei (variation row 9 at 12), mainly due to consumption of materials for which adjustments were made in the previous periods.

The production in progress and the finished products registered insignificant increases compared to the previous year, most of the projects started in 2021 being completed by the end of the year. The most important project started before this year, the execution of which will continue during the following year, Stejaru HPP continues to be the most important project pending in this category, the value of the production in progress on 31.12.2021 being of 4,645,449 lei and of the finished products of 3,330,297 lei. The equipment for Stejaru HPP was executed according to the execution sHPPdule, but for technical reasons, independent of the Company, the contact suffered very long delays.

The equipment for Stejaru HPP was executed according to execution schedule, but for technical reasons, independent of the Company the contact suffered very long delays. At the date of these financial statements the new delivery terms are under discussion.

Adjustments for the depreciation of production in amount of 7,408,040 lei progress, on 31.12.2021 do not register modifications. The new projects were carried out in accordance with the contractual provisions so that the largest share in the total of the adjustments for the depreciation of the production under execution on 31.12.2021 is the same as the previous year for the following projects:

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

6	Provisions for employee retirement benefits	692,948	640,494	692,948	640,494
	TOTAL (1+2+3+4+5+6)	232,605,508	640,501	190,068,217	43,177,792

In order to correlate the final table of creditors with the Company's records, there were resumed provisions for risks and expenses amounting to 1888,859,165 lei, simultaneously with the registration of the amounts in debt accounts.

There were also resumed provisions for risks and expenses amounting to 495,268 lei, constituted in the phase of registration of some receivables in the Preliminary Table of receivables but which have not been found in the final Table.

Provisioning for employees' benefits in 2021 were calculated in relation to persons who on 31.12.2021 meet the condition for retirement both for age limit or early retirement.

The provisions were constituted/diminished in accordance with the events that generated them.

9. Structure of shareholding and equity

On 31.12.2021, the Company is facing a special situation regarding the shareholding structure, described in detail below:

In the Articles of Association of UCM Reșița SA, drawn up in accordance with the provisions of Law 31/1990, registered at the National Office of the Trade Register, the Company's shareholders are:

- ✓ INET AG - legal entity of Swiss nationality
- ✓ Association of Employees of the Machine Construction Plant Resita - legal person of private law of Romanian nationality
- ✓ List of other natural / legal shareholders (PPM and others).

The consolidated Register of shareholders holding at least 10% issued by the Central Depository includes:

- ICESA SA
- Legal entities
- Individuals

As the Romanian economy was a hyperinflationary economy until 31.12.2003, applying of IAS 29 – “Financial Reporting in Hyperinflationary Economies”, requires restatement of the registered capital elements, legal reserves, other reserves existing in the balance at the date of application for the first time of IFRS which were highlighted in the balance at historical cost, so that the registered capital and other reserves have been updated based on monthly price indices, as reported by the National Statistics Institute in the period 01.01.1991 - 31.12.2003.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

Following the application of IAS 29, adjustment was done by restating the Financial Statements for the years 2010, 2011 and 2012, based on result carried forward in the account 118 "Result carried forward from the adoption of IAS 29 for the first time.

The adjustment, from the application of IAS 29, was performed on the reported result in the account 118 - "Retained earnings resulting from the adoption of IAS 29 for the first time.

On 31.12.2021 the Company had no bonds issued.

The Company is listed on Bucharest Stock Exchange since 1998, but as of 06.11.2011, the date of opening the general proceeding of insolvency, the company was suspended from trading. The shares issued by the Company are registered, dematerialized, and they are administered by S.C. Central Depository S.A. Bucharest.

(all amounts are given in lei (RON) unless otherwise stated)

14. Affiliated parties

In order to prepare these financial statements and presentation of transactions with affiliated parties (natural/ legal persons), the third parties are considered to be affiliated if one of them has the ability to control the other party or to exercise significant influence over the other party, in taking decisions on current operations with economic/financial effects.

In evaluating each possible relationship/transactions with affiliated parties, the emphasis is on the economic essence of the relationship and not necessarily on its legal form. For the purposes of the above, it is envisaged both the definition of affiliated parties in the Financial Reporting Standards, as well as those disclosed in the notes (point "f" in Presentation of Financial Statements).

The company has a subsidiary, s.c. MULTI-FARM s.r.l., Resita and an associated entity Bursa Română de Mărfuri, Bucharest.

The situation of transactions with affiliated parties is presented in Tables no. 24, 25, 26 below.

Table no. 24 – Sales / purchases of goods / services to and from affiliated parties

- lei -

No.	Explanations	2020	2021

We mention that there are 46 cases in the courts of law, in which the Company has the status of debtor or creditor but are suspended under the laws of insolvency, Law no. 85/2006, respectively the Law no. 85/2014. Also three files are suspended pursuant to art. 244, par. 1, point 2 of the Civil Procedure Code, until the settlement of some criminal cases.

b) Taxation and Transfer Pricing

The taxation system in Romania is in a phase of consolidation and harmonization with EU legislation; therefore, the tax legislation still allows different interpretations (texts formulated equivocal and/or insufficiently precise, inconsistencies with other regulative documents, etc.).

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

The practices for the financial statements remain open for inspection for five years.

The Company's management considers that the tax obligations included in these financial statements are properly set.

The tax legislation in Romania includes also rules on transfer pricing between affiliated parties.

The current legislative framework (the *Fiscal Code* and other specific regulations) establishes the principle of "market value" for transactions between affiliated parties, and the methods of transfer pricing.

Therefore, it is possible for the tax authorities to initiate checks on transfer pricing, to ensure that the fiscal outcome and/or the equity input value of goods are not distorted by the effect of the prices used in dealing with affiliated parties.

As the results of such checks are difficult to predict (quantify), the management of the Company is unable to assess/quantify the risks of transfer pricing.

c) Environmental contingencies and other contingencies

The environmental licenses held for the two industrial platforms on which the Company operates, are as follows:

- for the ABC platform: Environmental permit no. 94 of 18.11.2021, valid for the entire period in which UCM Resita obtains the annual visa, according to the provisions of Law 219/2019 and the Water Management Authorization no. 21 / S.G.A. - CS, from 29.03.2021, valid until 29.03.2024. The document was issued by the CS Water Management System.
- for the Cîlnicel platform: Environmental permit no. 96 / 25.11.2019, valid for the entire period in which UCM Resita obtains the annual visa, according to the provisions of Law 219/2019; (Annual visa decision no. 50 of 20.09.2020) and the Water Management Authorization no. 430 / 31.10.2019, valid until 31.10.2022. The document was issued by the Banat Water Basin Administration, Timisoara

Environmental permits are issued by the Caraș-Severin Environmental Protection Agency, and the water management is issued by the Banat Water Basin Administration, Timișoara.

According to Government Decision no. 780/2006 on the Emission Trading Scheme of Carbon Dioxide Scheme as of January 1, 2007, the economic agents owning installations in which a gas-emitting activity is carried out (EGES) must be authorized by the National Environmental Protection Agency. Through these authorizations, operators are required to monitor the emissions from their own activity quantitatively. SC UCM Resita S.A. is included in the list of economic operators that have installations that consume natural gas in operation and generate carbon dioxide emissions through heat production and heat treatment of parts. These facilities are located in two workplaces, on the ABC industrial platform and on the Cîlnicel industrial platform. In order to regulate greenhouse gas emission-generating activities, the Company is in possession of:

- Authorization no. 123/21.04.2021, regarding the greenhouse gas emissions for the period 2013-2030, for ABC platform - issuer National Agency for Environmental Protection;

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

- Authorization no. 124/21.04.2021, regarding the greenhouse gas emissions for the period 2013-2030, for the Călnicel platform - issuer National Agency for Environmental Protection.

Since 2007, for the control and reduction of emissions, the National Environmental Protection Agency/Ministry of Environment and Climate Change has allocated greenhouse gas emission allowances free of charge to the economic operators that generate them. For the 2013-2020 period, there was an initial allocation of a certain number of allowances, for which the basis of calculation was the activity carried out by the Company in the period 2008 - 2012 (proportional to the gas consumption needed for the production of thermal energy and for the thermal treatment of the processed parts)

Currently, the operators of the installations that hold authorizations regarding the greenhouse gas emissions for the period 2021-2030, comply with the legal obligations transmitted by the EU and taken over at national level for this interval.

For each calendar year elapsed, at the beginning of next year, according to the requirements of H.G. 780/2006, the *Company* has the obligation to return to the EGES Registry a number of certificates proportional to the activity carried out, respectively to the consumption of natural gas consumed. The difference between the adjusted number of certificates received and the number of certificates returned to ANPM/MMSC are those units that UCM Resita can trade at the market price.

The abandonment of the centralized heating system in recent years, namely the abandonment of the operation of the thermal power stations located on the ABC and Călnicel industrial platform, as well as the decrease of the productive activity level, led to the decrease of the gas consumption and implicitly to the lower quantities of gas emissions greenhouse effect. These reasons prompted the Company to receive a reduced number of greenhouse gas certificates compared to the initial allocation. Thus, the initial allocation was followed by adjusted allocations, proportionate to the work done each year so far, from 2013 to 2020.

The situation of the initial allocation and the adjusted allocation for the EGES installations of the Company on the two industrial platforms is presented in the following table:

Table 29 – Situation of certificate allocation for the period 2013-2020

Facility	2013		2014		2015	2016	2017	2018	2019	2020
	Initial allocation	Adjusted allocation	Initial allocation	Adjusted allocation	Initial allocation	Initial allocation	Initial allocation	Initial allocation	Initial allocation	Initial allocation
Industrial Platform ABC	8,243	4122	8,100	1525	7,955	7,809	7,661	7,512	7,360	7,209
Industrial Platform Călnicel	3,663	1953	3,600	1359	3,536	3,470	3,404	3,338	3,271	3,203

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

Notes:

EGES – Emissions of Gases with Greenhouse Effect

MMSC – Ministry of Environment and Climate Changes

ANPM - National Agency for Environmental Protection

The EU EGES Register - a standardized electronic database containing common data elements used to track the issuance, holding, transfer and cancellation of greenhouse gas emission certificates.

As a result of the difference between the EGES certificates received following the initial / adjusted allocations and those returned for fulfilling the compliance obligation, a number of certificates resulted annually, which UCM Resita had the possibility to capitalize.

In this context, the surplus of certificates from the period 2013-2020 was capitalized by trading, at the price of the profile market.

Table 30. The situation of EGES certificates corresponding to the interval 2013 - 2020

Installations	2013	2014	2015	2016	2017	2018	2019	2020
EGES	Excedent certificate EGES							
Industrial Platform ABC	2,911	765	- 358	284	346	- 401	- 337	-136
Industrial Platform Călnicel	1,015	582	527	624	- 78	5	19	158
Total	3,926	1,347	169	908	268	- 396	- 318	22

16. Management of risk

Below is a summary of the nature of management activities and policies to control the risks.

(i) Currency risk

The Company operates in Romania, in an economic environment with strong fluctuations of the national currency against other currencies; The company has transactions in a currency other than the functional currency (RON).

Transactions made in foreign currency are converted into lei at the exchange rate valid on the date of the transaction.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

Therefore, there is a moderate risk of depreciation of net monetary asset value expressed in domestic currency, the foreign exchange market in Romania regarding conversion of domestic currency in other currencies being organized by the rules and common practices strengthened in the last years and the role of BNR in this regard is very important.

Currently, there is no market from abroad to perform conversion of the domestic currency into other currencies.

(ii) Credit risk (rates, interests)

Credit risk involves the *Company* incurring a financial loss as a result of a breach of contractual obligations by a customer or a counterparty to a financial instrument, and this risk arises primarily from trade receivables. The *Company* monitors the exposure to credit risk by analyzing the seniority of the receivables it registers and acts to recover the past due or expired ones.

Exposure to credit risk is influenced by the individual characteristics of each client and the country in which he operates. Most of UCM Resita's clients operate in Romania.

The *Company's* management permanently monitors the degree of exposure to such risks, in order to keep it to a level as low as possible.

(iii) Liquidity risk

The *Company* may encounter difficulties in fulfilling its obligations associated with debts that are settled in cash or by transferring another financial asset.

The *Company's* approach to liquidity risk is to provide, to the extent possible, sufficient liquidity at all times to meet its debts when they become due, both under normal and stressful conditions, without bear unacceptable losses or jeopardize the *Company's* reputation.

To counteract this risk factor, the *Company* applied restrictive measures to deliver the products to uncertain customers, even requesting advance payment.

The management of the *Company* is also concerned with the careful selection of new customers according to their creditworthiness and financial discipline.

(iv) Risk of market and economic environment

The Romanian economy is still in transition, the economic and health crisis generated by the COVID pandemic - 19 significantly affecting it, even if there is some certainty about the future evolution of Romania's policy and economic development, as a member of the Union European. Market risk is the risk that changes in market prices, such as exchange rates, interest rates, and declining market demand will affect the *Company's* revenue.

The management of the *Company* cannot foresee the changes that will take place in Romania and their effects on the financial position, on the results of the activity or on the cash flows of the *Company* for the following accounting year, only within the limits of available information. Eventual changes that could affect the internal conditions of Romania and the effect they could have on the activities of the customers of the *Company* and hence, on the financial position, on

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

results and cash flows of *the Company* could not be taken into account in preparing the *financial statements*, only within the possible limits of predictability.

The instability of the market for raw materials and materials is a risk that has been mitigated by market research, renegotiation of contract terms and even change of suppliers, if it was not possible to change the terms.

The risk of price volatility from electricity, methane gas, metals, diesel, was prevented, as far as possible, by finding new suppliers or renegotiating contracts with traditional suppliers.

Identification and evaluation of business opportunities, including the development (capital investment), influenced by the current state of economic recession (crisis), analysis of compliance with the crediting contracts and other contractual obligation, evaluation of significant uncertainties, including those related to the ability of *the Company* to continue to operate for a reasonable period of time, due to falling demand, all these are permanent tasks in attention of Company's management for the purposes of identification, access and use of financial resources, respectively substantiation of possible future financial flows in order to support the principle of continuity.

The customers of *the Company* can also be affected by the crisis situations, the lack of liquidity which could affect their capacity to pay the current debts.

Impairment to customers' business and operating conditions may also affect grounding of cash flow provisions, respectively the analysis of *the Company's* financial assets (debts) depreciation. *The Company's* management cannot predict all events that could affect the industrial sector in Romania, respectively their impact on *the financial statements*.

The management considers that this risk (market, economic) is not so high as to cancel all other premises and conditions, taken into account when concluding that the preparation of these financial statements was done in compliance with the principle of business continuity, as it is defined by the applicable legislation.

17. Continuity of activity

Events and conditions with significant impact on business continuity

At the meeting of the Board of Directors on 30.11.2011 was decided opening of insolvency proceedings with the intention to reorganize the activity, the necessary documentation in this respect being submitted to the Law Court of Bucharest.

By decision of the court dated 06.12.2011, the syndic judge ordered opening of insolvency proceedings with the intention to reorganize the activity. *The Company* has retained the right to conduct the activity, to administrate and to dispose of the equity assets rights held under the supervision of the judicial trustee.

On 05.07.2021, the Judicial Administrator of the Company, EURO INSOL SPRL and VF Insolvență SPRL Consortium posted the final table of claims at the court registry, publishing it in the Insolvency Proceedings Bulletin (BPI) no. 11759 / 05.07.2021.

By Notification no. 543 / 05.07.2021 published in BPI no. 11758 / 05.07.2021, the creditors of the Company were informed about the submission of the final Table.

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

On 04.08.2021, the Judicial Administrator of the Company submitted the *Reorganization Plan for the activity of the debtor SC UCM Reșița SA*, both at the registry of the Bucharest Tribunal and at the Trade Register Office, according to art. 98, para. 1 of Law 85/2006.

The Creditors' Assembly approved the *Reorganization Plan for the activity of the debtor SC UCM Resita SA* on 26.10.2021, which was confirmed by the syndic judge by Decision 351 / 01.02.2022.

Strategy and forecasts of the Company's management regarding continuation of activity and future cash flows

Contracts concluded, projects and sales (revenues) expected according to the strategy of the Company's management

The Company is considering the high need of repair and modernization projects from S.C. Hidroelectrica s.a., knowing that most of the hydro power plants in Romania are at the end of their life, in addition, the design costs can be reduced significantly thereof, since such works/services have been made before.

Considering the Investment Strategy for refurbishment and modernization, for the period 2021-2025 published on the website of SPEEH Hidroelectrica SA, corroborated with the know-how and production capabilities held by UCM Resita SA, subject to winning tenders, the Company would have covered the portfolio of contracts in the next period.

The management of the Company supports his statement on the principle of continuity in preparing these *financial statements* also by the data and information presented below, namely:

- Contracts concluded and in progress (see Table No. 34 below);
- Strategic projects on the Romanian energy system or of other significant partners.

Table no. 31 - Statement of contracts in progress over the years 2022, 2023 and 2024

Type of contract	Currency	Value of contracts in progress (unit of currency)	Exchange rate on 31.12.2021 (lei / unit of currency)	Value with delivery in 2022 (lei)	Value with delivery in 2023 (lei)	Value with delivery in 2024 (lei)
EXTERNAL	EUR	524,810	4,9481	2,596,812	-	-
TOTAL EXTERNAL CONTRACTS				2,596,812	-	-
INTERNAL	EUR	5,358,806	4,9481	26,515,908	-	-
	GBP	125,644	5,8994	741,224	-	-
	RON	1,560,238		1,399,689	160,549	-
TOTAL INTERNAL CONTRACTS				28,656,821	160,549	-
GRAND TOTAL				31,253,633	160,549	-

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

The main contracts in progress at 31.12.2021 are:

- contract no. 33/2016 customer Romelectro Bucuresti, HPP Stejaru (final beneficiary Hidroelectrica), ongoing value 59.000 EURO (HG/GD 5 and 6);
- contract no. 33/2016 customer Romelectro Bucuresti, HPP Stejaru ongoing value 3,299,750 EURO (HG 1, 2,3,4);
- contract no. 62/2016 customer Romelectro Bucuresti, HPP Stejaru (final beneficiary Hidroelectrica), ongoing value 75.039 EURO (spherical valve 2500 no.5);
- contract nr. 62/2016 client Romelectro București Stejaru HPP (final beneficiary Hidroelectrica), ongoing value 7.162 EURO (spherical valve 2500 nr.5);
- contract no. 62/2016 customer customer Romelectro Bucuresti, HPP Stejaru (final beneficiary Hidroelectrica), ongoing value 888.454 EURO (spherical valve 4800 no.5);
- contract no. 62/2016 customer customer Romelectro Bucuresti, HPP Stejaru (final beneficiary Hidroelectrica), ongoing value 1.094.600 EURO (butterfly valve 4200 no. 1,2,3,4);
- contract 153/2021 client Hidroserv SA Services and Repairs Department PdF I, value in progress 299,970 RON (reconditioning of tread wheels)
- contract no. 182/2019 customer client Voith Hydro GMBH & CO KG Austria project Chaira, ongoing value 119.350 EUR
- contract no. 141/2021 customer Voth Hydro GmbH & Co.KG Division Small Hydro VHGE Austria project Huampi and Emas Nova, ongoing value 235,160 EUR

In order to support business continuity, we mention that beside the ongoing contracts mentioned above, there is the prospect of concluding contracts on domestic market, as follows:

- Reconditioning works for rotor blade sealing and rotor modernization for LN3 HA1, HPP Cornetu, amounting to 1,389,090 RON, contract to be carried out in 2022
- Reconditioning of the turbine rotor, Checking / Repairing the HA1 axial bearing hub, Costișa HPP, amounting to 1,274,000 RON, contract to be carried out in 2022
- Segments fixed with bolts and fixing bolts of the segments necessary for the maintenance works on the anti-cavitation ribs of the HA5 turbine rotor blades, HPP PdF I, amounting to 550,918 RON, contract to be carried out in 2022
- Type 4 insertion parts for the anti-cavitation ribs of the turbine rotor blades, HPP PdF I, worth 679,620 RON, contract to be carried out in 2022
- Execution of turbine rotor blades, HPP Turnu, amounting to 4,231,640 RON, contract to be carried out in 2022 - 2023
- Performing tests and measurements of partial discharges and interpretation of HA1 results, HPP Raul Alb, amounting to RON 48,470 RON, contract to be carried out in 2022

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

- Generator air coolers, Călimanești HPP, amounting to 1,285,168 RON, contract to be carried out in 2022
- Rehabilitation of 5,000 KW Liberty Galati electric motor, worth 980,000 RON, contract to be carried out in 2022
- Modernization of HA2 in 2 variants: 1. rehabilitation, arrangement of Arcești HPP, amounting to 21,337,452 RON, contract to be carried out in 2022
- Modernization / rehabilitation of HA2 var.1 equipment and execution of new GD and modernization / rehabilitation of remaining var.2 equipment, Remeți, amounting to 10,952,803 RON, contract to be carried out in 2022
- Modernization works for the turbine, hydrogenerator, auxiliary installations HA2, Vaduri HPP, amounting to 8,935,000 RON, contract to be carried out in 2022
- Axial radial bearing works, Oil and high pressure injection installation, Motru HPP, worth 1,000,000 RON, contract to be carried out in 2022
- Stator and rotor works, arrangement of Șugag HPP, amounting to 197,820 RON, contract to be carried out in 2022

Also, based on the request for an update received in 2022 from Hidroelectrica, the Company expects to make the aggregates related to the Pașcani HPP project (discontinued in 2012) at a value of approximately 4.5 million EUR.

New contracts are expected to be signed on the foreign market with:

Voith Hydro GMBH & CO KG Austria, worth 150,000 EUR, contracts to be carried out in 2022.

Other premises for the possibility to observe the principle of continuity

The Company, which was created to support, almost entirely, the development of hydropower in Romania, being able to execute new and complex equipment and to repair or refurbish the equipment already in use, has a strategic position, a tradition and a special technical potential that can be considered as basic premises in the development of production activities and services in future periods.

Has specialists and on organizational system designed for commissioning and/or rendering of specialized services for the national hydropower equipment in operation, of which over 90% were designed and built at UCM Resita.

Still holds the necessary know-how and capability required for upgrading of equipment installed in the Romanian power plants, of which more than 80% have exceeded their lifetime and requires rehabilitation works.

Has the know-how required for the manufacture of spare parts necessary for proper operation of equipment, also the design and production capability for continuous upgrading of the solutions offered.

Moreover, starting with 2015, with the specialists employed in the design department, *the Company* is capable to provide the following types of engineering works:

- Design works for hydropower equipment:

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

- ✓ Vertical synchronous generators, with outputs from 1 MW to 200 MW and speed of 62 rpm;
- ✓ Vertical synchronous generators, with outputs from 1 MW to 200 MW; speeds from 62 rpm to 1,000 rpm and voltages from 6.3 kV to 15.75 kV;
- ✓ Horizontal synchronous generators, with outputs from 1 MW to 15MW; speeds from 62.5 rpm to 1,000 rpm and voltages from 6.3 kV to 10.5 kV;
- ✓ Synchronous generators horizontal, encapsulated, bulb type, with outputs from 1 MW to 30 MW; speeds from 62.5 rpm to 1,000 rpm and voltages from 6.3 kV to 10.5 kV;
- ✓ Synchronous exciters with rotating diodes for the generators designed;
- ✓ Conversion of DC exciters into exciters with rotating diodes;
- ✓ Synchronous and asynchronous generators for MHP with outputs from 100 kW to 1MW;
- ✓ Francis hydraulic turbines with outputs from 1 MW up to 200 MW and heads between 50 and 500 m;
- ✓ Kaplan hydraulic turbines with outputs from 1 MW up to 200 MW and heads between 10 and 30 m;
- ✓ Bulb-type hydraulic turbines with outputs from 1 MW up to 30 MW and heads between 3 and 15 m;
- ✓ Pelton hydraulic turbines with outputs 1 MW up to 175 MW and heads between 50 and 750 m;
- ✓ Hydraulic turbines for MHC with outputs between 100 kW and 1 MW;
- ✓ Butterfly intake valves and pressure noose turbine with diameters between 1 m up to 5 m and heads up to 200 m water column;
- ✓ Spherical intake valves with diameters between 0.5 m up to 2.2 m and heads up to 770 m water column;
- ✓ Speed governors, oil pressure groups and facilities related to the hydro power units offered.
- Feasibility studies for new investments or refurbishment;
- Technical expertise diagnostics for existing equipment in operation;
- Review of projects for the works performed, validated by project verifiers certified on both mechanical and electrical segments;
- Consultancy and technical assistance during installation work, commissioning and maintenance.

Important events influencing the continuity of UCMR activity:

During 2021, SPEEH HIDROELECTRICA continued the action started in the previous year by the consultant Ernst & Young in the Scorilo project, having as object "specialized consultancy services, assistance, due diligence, evaluation and conclusion of active takeover transaction from UCM Resita SA".

Separate Financial Statements on December 31, 2021
(all amounts are given in lei (RON) unless otherwise stated)

As the deadlines initially established were exceeded, on 01.07.2021 by the address no. 73155.1 Hidroelectrica reconfirmed the interest to take over the assets of UCM Reșița, specifying that it passed to the second stage of the consulting contract, respectively the evaluation of the identified assets.

By the end of 2021, this stage has been completed and we have moved on to the third stage of the contract, in which the consultant Ernst & Young must present the solution to complete the transaction.

After the completion of the third stage, Hidroelectrica will send an offer to UCM Reșița, as specified in the address from 01.07.2021.

18. Subsequent Events

By the civil sentence no. 351 / 01.02.2022 issued by the Bucharest Tribunal, Civil Section VII, in insolvency file no. 75017/3/2011, published in the Bulletin of insolvency proceedings no. 2457 / 09.02.2022, it was confirmed the reorganization plan proposed by the Judicial Administrator for the debtor U.C.M. Reșița SA, as approved by the decision of the Creditors' Meeting of 26.10.2021, thus the debtor's activity during the reorganization being led by the Judicial Administrator.

Therefore, starting with 02.02.2022, UCM Reșița SA entered into reorganization, its activity being led by the Judicial Administrator - EURO INSOL SPRL and VF Insolvență SPRL Consortium.

Through the Payment Program of the receivables annexed to the Reorganization Plan of the Company, there were established distributions in total amount of 234,689,385.79 lei to the categories of guaranteed creditors, budgetary and employees.

According to the provisions of the Reorganization Plan, no distributions of amounts to unsecured and subordinated creditors were provided.

Due to entry into the reorganization period, the Bucharest Stock Exchange ordered the reintroduction of UCM Reșița shares for trading, starting with 09.02.2022.

Another subsequent event with an impact on the activity of UCM Reșița SA is the opening of the general insolvency procedure against the client SC ROMELECTRO SA, ordered by the Closing of the hearing pronounced on 03.02.2022, by the Bucharest Tribunal in file 909/3/2022.
